PG: change

30. Eliminate aid four-year-old kindergarten in the second year. If a school district wants to continue to have four-year-old kindergarten, they may, but they have to raise the funding to do it, and may raise the money outside the revenue cap. (\$22 million) (At the request of Representative Grothman.)

31. Reverse up to \$115 million of school aid payment delay. In addition, realize savings of \$700,000 in interest which no longer would have to be paid.

32. Lapse SEG and PR pension savings dollars (\$22.1 million) to general fund.

33. Asset test for family Medicaid. The Health Care package removed a JCF provision which eliminated the MA asset test. This violates the terms of Wisconsin's BadgerCare waiver and, as a result, Wisconsin will lose the ability to claim the enhanced federal reimbursement. \$736,000 GPR to reverse back to JCF's position.

34. Various Transportation Fund changes:

- Lapse pension savings (\$3.6 million SEG);
- Require DOT to submit a plan to JCF to lapse \$600K SEG, each year;
- Limit provision of free identification cards to those who demonstrate a hardship which precludes their paying for an identification card, to be determined by DOT rule; and
- In '04-'05, transfer sales tax on vehicles to Transportation Fund.

35. Direct creation of a Legislative Council study committee on school financing.

36. Direct 100 percent of hunting and fishing license fees to be utilized for conservation purposes, as defined by JCF.

37. Cap Universal Service Fund at \$4.0 million, per year, beginning in '03-'04.

38. Direct the Department of Health and Family Services to report to JCF, by January 1, 2002, on the potential for long-term savings in the BadgerCare program.

PG: change

39. Direct the Department of Administration and the Department of Public Instruction to work together to maximize use of federal dollars and report to the JCF if increased federal dollars could be used to offset general or categorical school aids.

40. Shared revenue payments on utility property. (At the request of Representative Hoven.)

Under current law, the gross revenues of light, heat and power companies, qualified wholesale electric companies and rural electric cooperatives are subject to a state gross receipts tax at a rate of 3.19%. The revenue collected by the tax is used for state utility aid payments to municipalities and counties with utility property within their borders. Aid is calculated by multiplying nine mills by the net book value of the eligible property. Under the calculation, two-thirds of each payment is paid to the municipality if the eligible property is in a city or village, and the remaining one-third is paid to the county. If the utility property is located in a town, the municipality receives one-third of the aid amount, and the remaining two-thirds is paid to the county.

Also under current law, utility aid payments are subject to two limitations. First, the value of property owned by a single utility in a municipality is capped at \$125 million. Second, payments are limited to \$300 per capita for each municipality and \$100 per capita for each county.

This provision would increase the limits on the value of utility property in a municipality or county and the per capita payment limits for municipalities and counties for purposes of calculating utility aid under the shared revenue program, beginning with payments for 2003. Set the limits on value at \$140,000,000 for payments in FY 2003, \$160,000,000 for payments in FY 2004, \$185,000,000 for payments in FY 2005 and \$250,000,000 for payments in 2006. Set the per
