FE Sent For:

million, \$45 million would be allocated annually for the land acquisition subprogram (from \$34.5 million currently) and \$15 million for the property development and local assistance subprogram (from \$11.5 million currently). Under current law, at least \$3.5 million of these funds must be spent on property development and up to \$8.0 million may be provided for local assistance. Under this provision, at least \$7 million would be available annually for property development and up to \$8 million for local assistance. The provision would increase total general obligation bonding authority for the stewardship 2000 program from \$460 million to \$572 million.

Assembly: Reduce available bonding authorization under the Warren Knowles-Gaylord Nelson Stewardship 2000 program by an amount equal to 5% of the total debt service repayment for the previous fiscal year for conservation-related land acquisition. Based on estimated debt service repayments totaling \$22.15 million in 2000-01 and \$20.0 million in 2001-02, available bonding authority under Stewardship 2000 would be reduced by \$1,107,500 from \$46 million to \$44.9 million in 2001-02 and by \$1,000,000 to \$45 million in 2002-03. The reduction would be taken from both the land acquisition (75%) and the property development and local assistance (25%) subprograms.

	Chg. to JFC
BR	-\$2,107,500

3. STEWARDSHIP URBAN PURCHASES

Senate: No change to Joint Finance.

Assembly: Beginning with available bonding authority for 2001-02, require that 10% of all available funds for land acquisition under the Warren Knowles-Gaylord Nelson Stewardship 2000 program be provided to acquire land in incorporated areas and that each acquisition of land or easement be consistent with the local comprehensive land use plan of the community where the property or development rights to be purchased are located.

4. STEWARDSHIP EASEMENT LIMITATION

Senate: No change to Joint Finance.

Assembly: Prohibit DNR from entering into any agreement to purchase development rights or conservation easements with funds from the Stewardship 2000 program if the agreement would allow DNR to retain the development rights or easement for longer than 30 years.

5. STEWARDSHIP PROJECTS

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

WLJ

This draft affects the joint finance substitute amendment ^{to Senate Bill 55} by doing the following:

1. Decreasing the amount of stewardship funding for the conservation law enforcement museum from \$250,000 to \$200,000.
2. Changing the funding source for the renovation of the Atlas Mill from stewardship funding to the conservation fund.
3. Providing stewardship funding for Prairie River restoration in the amount of \$450,000.
4. Providing stewardship funding in the amount of \$2,370,000 for a visitor center and administration building at the Kickapoo valley reserve.

Funding for the remaining stewardship items is provided for in the following drafts:

1. LRBb1008/2 – Stewardship funding for a camping and recreation area in Hillsboro.
2. LRBb0955/1 – Stewardship funding for the Root River pathway.
3. LRBb0999/1 – Stewardship funding for the beach at Grant Park in Milwaukee County.

With regard to the Atlas Mill project, I have created an annual appropriation providing for the expenditure of the appropriated amounts in the first year only. Is this O.K.?

It is possible that a Wisconsin ^{article} court ^{section} would find that this amendment is a “private or local law” which, under ~~art~~ ^{art} IV, ~~sec~~ ^{sec} 18, of the Wisconsin Constitution, must be enacted as single-subject legislation. If so, this amendment cannot validly be enacted as part of the budget bill, which clearly encompasses more than one subject. As it is difficult to predict the potential for and outcome of any court action on this amendment, it may be advisable to consider introducing this proposal as a separate bill.
