treatment facility if the person has implemented a program to minimize the acceptance of recyclable materials at the facility. DNR would be directed to promulgate administrative rules to establish minimum standards for a program to minimize the acceptance of recyclable materials at a solid waste disposal facility or a solid waste treatment facility. Require that persons who violate the prohibition pay a forfeiture of \$50 for the first violation, \$200 for the second violation and \$2,000 for the third or subsequent violation. Authorize DNR to issue a citation to collect the forfeiture for the violation of the prohibition. (This would be the same as the penalties for violation of the current prohibition.)

(2) Prohibit any solid waste facility that provides a collection and transportation service from transporting solid waste for delivery to a solid waste disposal facility or a solid waste treatment facility that converts solid waste into fuel or that burns solid waste with or without energy recovery if the solid waste contains more than an incidental amount of materials subject to the 1995 landfill bans, as provided by DNR rule. The provision would not apply for activities currently exempt from the landfill and incineration bans. The prohibition would be subject to the same enforcement and penalties as for violations of current prohibitions and the new prohibition described above.

(3) Revise the exception to the 1995 landfill and incineration bans to apply the exception to waste that contains no more than an incidental amount of the banned recyclables, as established by DNR rule, instead of to any waste that is generated in a region that has an effective recycling program under current law. Direct DNR to promulgate administrative rules to implement the provision. Retain the current exemption to the exception for solid waste that is separated for recycling as part of an effective recycling program.

j. *Recycling Market Development Board.* Make the following changes in current Commerce RMDB requirements:

(1) Direct the RMDB to give priority to grants, loans or manufacturing rebates for projects that involve recovered materials that either: (a) constitute a relatively high volume of solid waste generated in the state; or (b) are hazardous to human health or the environment

(2) Direct the RMDB to allocate up to \$200,000 annually for forgivable loans for projects that have exceptional potential to meet one of the existing four criteria that the RMDB must consider before awarding financial assistance, but that do not comply with the standard criteria established by the RMDB or Commerce to meet their fiduciary responsibilities in managing state resources. Currently, before the RMDB awards a grant, loan or manufacturing rebate, the RMDB is required to consider the extent to which the project: (a) maximizes the marketability of recovered materials on a statewide basis; (b) minimizes the amount of recovered materials disposed of in landfills or burned without energy recovery in incinerators; (c) includes materials that are banned from landfills and that will support community recycling efforts; and (d) maintains present markets or creates new or expanded markets for recovered materials.

(3) Direct the RMDB, in consultation with the Council on Recycling, to annually establish a list of materials recovered from solid waste for which it may award financial assistance.

(4) Restore the requirement (that was deleted under Joint Finance) to require that Commerce annually contract for the operation of a statewide materials exchange program that received funding from the RMDB in the 1997-99 biennium. (The RMDB provided \$100,000 in each of 1999-00 and 2000-01 to the Business Materials Exchange of Wisconsin.)

k. *University of Wisconsin System.* Restore \$154,900 SEG annually with 0.5 SEG position for the UW System solid waste experiment centers and grants by the Solid Waste Research Council. (This would be a decrease of \$50,000 from current law funding levels.)

l. *University of Wisconsin - Extension.* Restore current law funding of \$336,900 SEG and 4.0 SEG positions for the UW-Extension Solid and Hazardous Waste Education Center (SHWEC).

m. *Department of Corrections.* Convert \$50,200 SEG in 2001-02 and \$50,600 SEG in 2002-03 and 1.0 SEG position to program revenue generated from computer recycling activities. Corrections would continue to be appropriated \$336,100 SEG in 2001-02 and \$336,600 SEG in 2002-03 and 3.0 SEG positions for computer recycling activities.

n. *Department of Revenue.* Delete \$27,000 SEG annually and 0.5 SEG position to maintain \$231,800 SEG and 1.0 SEG position annually for administration of the recycling surcharge.

23 560.031 (3) (bc) In awarding grants, loans, and manufacturing rebates under
24 this subsection, the board shall give priority to projects that involve recovered

1 materials that constitute a relatively high volume of solid waste generated in this
2 state or that are hazardous to human health or the environment.

3 **SECTION 3619n.** 560.031 (3) (cm) of the statutes is created to read:

4 560.031 (3) (cm) Annually, the board shall allocate up to \$200,000 in financial
5 assistance under this subsection for forgivable loans for projects that have
6 exceptional potential to meet one of the qualifying considerations under par. (a) 1.,
7 2., 3., or 4., but do not comply with the standard criteria established by the board or
8 department for meeting its fiduciary responsibilities in managing state resources.

9 **SECTION 3619p.** 560.031 (4m) of the statutes is created to read:

10 560.031 (4m) The board may award a grant or loan under this subsection for
11 a project to develop markets for high-volume industrial waste or to assist generators
12 of high-volume industrial waste in marketing high-volume industrial waste. Before
13 awarding a grant or loan, the board shall consider whether the project does all of the
14 following:

- 15 (a) Maximizes the marketability of high-volume industrial waste on a
16 statewide basis.
- 17 (b) Minimizes the amount of high-volume industrial waste disposed of in
18 landfills.
- 19 (c) Maintains present markets or creates new or expanded markets for
