DHFS must also distribute for this purpose additional moneys received as federal financial participation that were not anticipated before enactment of the biennial budget act or before enactment of other legislation that affects the appropriation of such federal moneys. The distribution of these supplemental payments is made under a method that includes consideration of the size of a nursing home's operating deficit and an agreement by the affected county, city, town, or village to provide funds to match the federal moneys. DHFS must revise the method, for approval by JCF, if the federal department of health and human services approves a lesser amount of federal moneys for expenditure. If the federal department of health and human services disallows use of the federal moneys for the purpose of these supplemental payments, DHFS must reduce allocations to counties, and a city, town, or village that owns or operates a nursing home that has received funds must reimburse the county in which the city, town, or village is located.

This bill as of July 1, 2000, retroactively eliminates, in the program to supplement MA payments to reduce operating deficits of county, city, village, or town nursing homes, the requirement that DHFS distribute for this purpose additional, unanticipated moneys received as federal financial participation and increases, to up to \$40,100,000, the amount of federal financial participation that may be distributed. Further, the bill specifies amounts that may be distributed, beginning in state fiscal year 2001–02, depending on whether or not federal financial participation in the amount of at least \$115,200,000 is received.

For further information see the **state and local** fiscal estimate, which will be printed as an appendix to this bill.

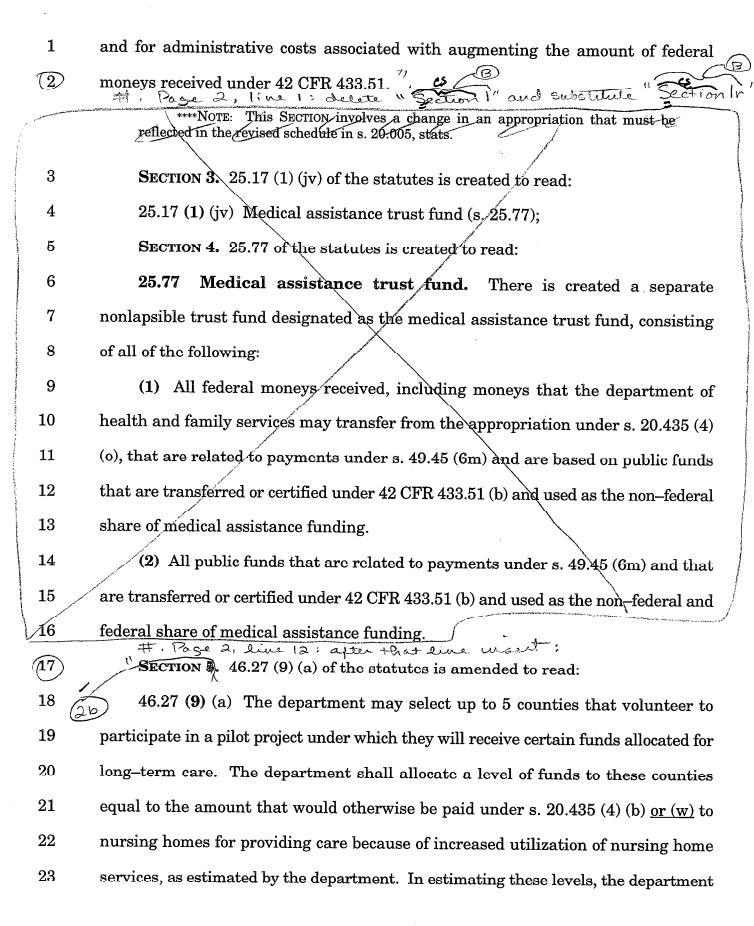

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
