Subject: New Congressional Plan

Hi Pete,

Attached is a zip file containing the outline shape file for the new congressional district plan. This plan is to be drafted with access given to both Rep Black and Rep Williams.

I based the plan on the AB 711 shapefiles you sent to me on 1/9/2002. I did not make any changes to the AB 711 geography of CDs 2, 3 6, 7 or 8. If any corrections were made to AB 711 after 1/9, they will need to be accounted for in this plan.

Following is the deviation breakdown reached within autobound:

CD	PERSONS	Targ.	Dev.
1	671592	670459	0%
2	669272	670459	0%

D NOTE

- ¶ The overall range of this plan, .47%, is higher than the overall range of the bill it amends (.00%). It is also higher than the overall range of the congressional plans adopted after 1970 (1970 (.07%), 1980 (.09%), and 1990 (.00%)). The smaller the overall range of a plan, the more defensible the plan is under article I, section 2 of the U.S. Constitution (requiring congressional districts within the state to be strictly equal in population). You may want to consider reducing the overall range of this plan.
- ¶ You have created a plan using U.S. Census blocks rather than Wisconsin's traditional use of municipal wards. For this draft, we have described the districts using municipal wards where possible. For the portion of a division between districts that does not follow ward boundaries, we have described the division by listing the U.S. Census tract and block numbers for the territory in each district.

May have been a glitch in import process. This sometimes happens with autobound. 3rd should be the same as in AB711, so your change is correct. Thanks Pete.

One problem:

Clark County, town of Worden, tract 950400, block 2022 -- western edge of the town zero pop block, should probably be in the 3rd, not the 7th
I've put it in the 3rd. Please confirm

Subject: New Congressional Plan

Hi Pete,

Attached is a zip file containing the outline shape file for the new congressional district plan. This plan is to be drafted with access given to both Rep Black and Rep Williams.

I based the plan on the AB 711 shapefiles you sent to me on 1/9/2002. I did not make any changes to the AB 711 geography of CDs 2, 3 6, 7 or 8. If any corrections were made to AB 711 after 1/9, they will need to be accounted for in this plan.

Following is the deviation breakdown reached within autobound:

CD	PERSONS	Targ.	Dev.
1	671592	670459	0%
2	669272	670459	0%
3	670461	670459	0%

5	670061	670459	0%
