Assumptions Used in Arriving at Fiscal Estimate

SB 250 requires health insurance policies that currently are required to cover equipment and supplies for diabetes treatment to also cover prescription medications used to treat diabetes.

SB 250 will not have a fiscal impact on the state group health insurance plan or any local government included under the state plan since prescription drugs are already covered under the plan and any drug for diabetes treatment would be currently covered if it were medically necessary.

However, coverage of prescription drugs in other local government plans may vary in costs and therefore, those costs are indeterminate.

Long-Range Fiscal Implications
