Subject Commercial building code - horse boarding and horse training facilities		

Assumptions Used in Arriving at Fiscal Estimate

This item would exempt horse boarding and horse training facilities that do not contain an area for the public to view a horse show from construction standards regarding public buildings and places of employment promulgated by the department and construction-related statutes.

Currently, horse boarding and training facilities that are public buildings or places of employment must comply with the Department's building construction codes. They must submit plans for review, receive plan review approval and are subject to inspection during construction. If the facility is defined as a farm, it is exempt per statute.

The Department estimates that the number of facilities that would be affected by this proposed legislation is less than two dozen annually. Therefore, the estimated fiscal impact would be an annual decrease of approximately \$10,000 in revenue. This decrease would not impact the operations of the Department.
