Assumptions Used in Arriving at Fiscal Estimate

This bill revises the privacy laws to include, among other things, permitting juvenile and municipal courts to share juvenile records with law enforcement, other courts, intake workers, district attorneys and other justice system representatives. The person receiving the information must keep it confidential.

Present law requires judges to review the requests for release of this information on a case by case basis when juvenile records are involved. In 2000, there were an estimated 25,300 juvenile cases filed in the circuit courts involving CHIPS and delinquency actions. With the implementation of the Consolidated Court Automation Program (CCAP) electronic sharing of this information is possible in 69 of 72 counties for justice system partners. This bill would remove the necessity of individual orders or hearings by the circuit court for each request and would save the time of all parties involved in the request. It would result in an indeterminate savings to both the state and the county.
