Assumptions Used in Arriving at Fiscal Estimate

This bill creates a statute that specifically regulates the storage and handling of anhydrous ammonia and increases the penalty that applies to certain violations of rules established by the Department of Commerce.

The Department of Corrections is unable to estimate the number of individuals who may be convicted under this bill, whether the conviction would result in imprisonment or probation, or the length of time of imprisonment or probation. Because of these factors, it is not possible to project the net fiscal impact of this legislation at this time.

Long-Range Fiscal Implications
