### *Analysis by the Legislative Reference Bureau*

Under current law, the parent or guardian of a minor may consent to have the minor tested for the presence of alcohol or other drugs in the minor's body, without the consent of the minor. For inpatient treatment of a minor 14 years of age or over for alcohol or other drug abuse, however, the consent of the minor, as well as the consent of the minor's parent or guardian, is required. This bill eliminates the requirement that a minor 14 years of age or over consent before the minor may receive inpatient treatment for alcohol or other drug abuse. The bill also permits a parent or guardian of a minor to consent to have the minor assessed for the minor's abuse of alcohol or other drugs and to consent to a plan of treatment that is

**ASSEMBLY BILL 116**

recommended based on the assessment. The consent of the minor to the assessment or the treatment is not required.

Under current law, if a minor 14 years of age or over wishes to be admitted to an inpatient facility for treatment for alcohol or other drug abuse, but the minor's parent or guardian refuses to execute the application for admission or cannot be found, the minor may petition the court assigned to exercise jurisdiction under the children's code (juvenile court) for approval of the admission. This bill permits a minor under 14 years of age to petition the juvenile court for approval of his or her admission to an inpatient facility if the minor's parent or guardian cannot be found. The bill also requires a minor who obtains admission to an inpatient facility by petitioning the juvenile court to approve the admission to be discharged within 48 hours after submitting a request for discharge.

Similarly, under current law, a physician or health care facility may render preventive, diagnostic, assessment, evaluation, or treatment services for the abuse of alcohol or other drugs to a minor 12 years of age or over without obtaining the consent of or notifying the minor's parent or guardian. This bill permits a physician or health care facility to render those services to a minor under 12 years of age without obtaining that consent or providing that notice if the minor's parent or guardian cannot be found.

Under current law, a minor 14 years of age or over who is voluntarily admitted to an inpatient facility for treatment for alcohol or other drug abuse may request that he or she be discharged from the facility and, subject to certain exceptions, must be discharged within 48 hours after submission of the request. This bill eliminates the requirement that a minor 14 years of age or over who has been voluntarily admitted to an inpatient facility for treatment for alcohol or other drug abuse be discharged within 48 hours after his or her request and instead requires the minor to be discharged within 48 hours after the request of the minor's parent or guardian. The bill also permits a minor who is not discharged either on the request of the minor or the request of the minor's parent or guardian to submit a request to the juvenile court to hold a hearing to determine the continued appropriateness of the minor's admission.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
