2 35., 71.05 (6) (b) 36. and 71.07 (5) (a) 16. of the statutes; **relating to:** creating
3 an individual income tax subtract modification for amounts spent on medical
4 insurance premiums, medical and dental expenses, and prescription and
5 nonprescription drugs by certain individuals.

Analysis by the Legislative Reference Bureau

Under current law, there is an individual income tax deduction for 50% of the amount paid by a person for a medical care insurance policy that covers the person, his or her spouse, and the person's dependents if the person's employer pays no amount of money toward the person's medical care insurance. Also under current law, a similar deduction exists for 100% of such amounts paid for a medical care insurance policy by a self-employed person.

This bill creates an individual income tax deduction for 100% of the amount paid by an individual for a medical care insurance policy that covers the individual, his or her spouse, and the individual's dependents if the individual is not eligible to claim any of the current law deductions for amounts paid for a medical care insurance policy. The bill creates similar deductions for 100% of the amount paid by an individual for medical and dental expenses, prescription drugs, and nonprescription drugs or drug products.

This bill will be referred to the joint survey committee on tax exemptions for a detailed analysis, which will be printed as an appendix to this bill.
