Analysis by the Legislative Reference Bureau

Under current law, no person may operate a vehicle upon a highway during hours of darkness unless any required headlamps, tail lamps, and clearance lamps of the vehicle are lighted. A person who violates this requirement may be required to pay a forfeiture of not less than $10 nor more than $20 for a first offense and not less than $25 nor more than $50 for a second or subsequent conviction within a year.

This bill provides that these lamps must also be lighted whenever it is raining, snowing, sleeting, or hailing, or at any other time visibility is impaired by inclement weather, except when headlamps that are automatically activated are lighted. A person who violates this provision is subject to the same minimum and maximum forfeiture amounts that may be imposed for failure to use these lamps during hours of darkness, although the bill prohibits a law enforcement officer from stopping or inspecting a vehicle solely to determine whether the required lamps are lit during periods of inclement weather.

The bill also requires certain vehicles to be equipped with rear reflectors whenever it is raining, snowing, sleeting, or hailing, or at any other time visibility is limited by inclement weather.
For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
