AN ACT to amend 343.237 (title), (2), (3) (intro.), (a), (c) (intro.), and (d), (4m), (5), (6), (7), (8), and (10), 343.237 (9) and 343.50 (4); and to create 343.14 (3m) of the statutes; relating to: thumbprints on motor vehicle operators’ licenses and identification cards.

Analysis by the Legislative Reference Bureau

With limited exceptions, current law requires the department of transportation (DOT) to take a photograph of all applicants for an operator’s license or identification card. The photograph must appear on the operator’s license or identification card document. However, DOT may issue an operator’s license without a photograph in specific situations where DOT deems such action appropriate. DOT may keep copies of photographs taken for an operator’s license or identification card for DOT’s own use but generally must keep the photographs confidential. However, DOT may release a photograph to the individual whose photograph was taken. In addition, DOT may, under certain circumstances, release a copy of a photograph taken on or after September 1, 1997, to a Wisconsin law enforcement agency or to a law enforcement agency of a physically adjacent state. DOT may release a copy of a photograph to a law enforcement agency only if the agency submits a written request on the agency’s letterhead that specifies the name of the person whose photograph is requested, along with the name of the requester and the law enforcement agency that employs the requester, and states that the photograph is requested for the purpose of investigating unlawful activity, looking for a missing person, or identifying an accident victim or a deceased person. If a law enforcement agency
receives a copy of a photograph from DOT, the agency must keep the copy of the photograph confidential and may disclose it only if necessary to perform a law enforcement function.

This bill requires DOT, with limited exceptions, to take a thumbprint of all applicants for an operator’s license or identification card. The thumbprint may not appear on the operator’s license or identification card document. However, DOT may issue an operator’s license or identification card without taking a thumbprint in specific situations where DOT deems such action appropriate. DOT may keep copies of a thumbprint taken by DOT for DOT’s own use but generally must keep the thumbprint confidential. However, DOT may release copies of a thumbprint to the individual whose thumbprint is taken. In addition, DOT may release written or electronic copies of a thumbprint to a law enforcement agency under the same circumstances and with the same limitations, with respect to the thumbprint, that apply to the release of photographs.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
