AN ACT to amend 121.555 (1) (a), 121.555 (1) (b) and 340.01 (56) (a) of the statutes; relating to: school buses and alternative motor vehicles used for pupil transportation.

Analysis by the Legislative Reference Bureau

Under current law, a school district or a private school may transport students to and from school and other educational activities in an alternative motor vehicle if students are not transported in a school bus. A “school bus” is a vehicle that is specially painted as an identifiable school bus or any vehicle transporting ten or more pupils to and from school and other educational activities. An alternative motor vehicle is a motor vehicle that is owned by or operated under contract with a school board or a private school and may transport nine or fewer passengers. However, if an emergency exists and a school board or private school has the permission of the secretary of transportation, an alternative motor vehicle may transport ten or more passengers.

This bill specifies that, absent an emergency and permission of the secretary of transportation, an alternative motor vehicle must be designed and used to transport nine or fewer passengers. The bill also specifies that a school bus is a vehicle specially painted as an identifiable school bus or any vehicle that is designed and being used to transport ten or more pupils to and from school or other educational activities.
For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
