The Wisconsin State Fire Chiefs Association and the Wisconsin Fire & EMS Coalition, an organization of eight Wisconsin Fire & EMS Organizations, support delaying adoption of any Building or Fire Code until a comparison of the ICC & NFPA Codes can be completed. The State of Wisconsin has had its own codes for over eightyfive years. The current Wisconsin Codes can be utilized another two years, until an adequate comparison could be completed of the ICC & NFPA suites of codes. Until a comparison of these two suites of codes has been completed the signatures of this petition support the delay in adoption of any new State Codes.

Wisconsin will miss the opportunity to adopt the most comprehensive suite of codes for the State of Wisconsin if a careful analysis is not completed prior to adoption. Each day we read and hear of disasters killing and/or injuring citizens as well as firefighters throughout this country and the world. Many times during the investigation in the aftermath of the disaster we learn that inadequate codes contributed or even were the cause of the injuries and/or loss of life.

During the comparison we urge the various code councils to maintain and update the current codes to meet the needs of code enforcement and safety of the residents of the State of Wisconsin.

Athelstane Vol. Fire Dept.
P. O. Box 91
Athelstane, WI 54104

Inclosed are members of the Athelstane Vol. Fire Dept. who are signature in support of the Sloth Fire Chiefs Assn. in their efforts to delay the adaption of any International Fire Code [redacted], + prefer our own NFPA standards be given proper considerations.
