9 the statutes; **relating to:** operating a vehicle or operating or going armed with
10 a firearm after using certain controlled substances and providing penalties.

Analysis by the Legislative Reference Bureau

Under current law, a person may not operate a motor vehicle, an all-terrain vehicle (ATV), a snowmobile, or a motorboat if he or she: 1) has an alcohol concentration of 0.1 or more in his or her blood, breath, or urine; or 2) is under the influence of an intoxicant (alcohol, drugs, or a combination of alcohol and drugs) that impairs his or her ability to operate the motor vehicle, ATV, snowmobile, or motorboat safely. Penalties for a person who violates one of these prohibitions (which include suspension of the person's driver's license) depend on the number of prior offenses, whether the person injured or killed another as a result of operating the motor vehicle, ATV, snowmobile, or motorboat, and, if another person was injured, the extent of that person's injury. Current law, however, provides a person a defense to prosecution for causing injury or death if the person can prove that the injury or death would have occurred even if he or she had been exercising due care and did not have a prohibited alcohol concentration or was not under the influence of an intoxicant. Current law also prohibits a person from operating or going armed with a firearm while under the influence of an intoxicant, with more severe penalties applying if another person is killed as a result.

This bill prohibits a person from operating a motor vehicle, an ATV, a snowmobile, or a motorboat or operating or going armed with a firearm if he or she has a detectable amount of a restricted controlled substance in his or her blood, regardless of whether the person's ability to operate the motor vehicle, ATV, snowmobile, or motorboat safely has been impaired. The bill defines a restricted controlled substance as: 1) delta-9-tetrahydrocannabinol (the primary active ingredient in marijuana); 2) a controlled substance (other than marijuana) included in Schedule I under the state's controlled substance law, which includes heroin, LSD,

BILL

PCP, and certain “club drugs”; 3) cocaine or any of its metabolites; and 4) methamphetamine. Penalties for a person who violates one of these prohibitions are the same as those that would apply if the person had a prohibited alcohol concentration or had been under the influence of an intoxicant. The bill, however, provides a person who has a detectable amount of a restricted controlled substance in his or her blood a defense to causing death or injury if the person can prove that the injury or death would have occurred even if he or she had been exercising due care and did not have a detectable amount of a restricted controlled substance in his or her blood. In addition, a person has a defense to prosecution for any offense created under the bill that is based on the person having a detectable amount of methamphetamine or delta-9-tetrahydrocannabinol in his or her blood if the person can prove that he or she had a valid prescription for methamphetamine, a drug that metabolizes into methamphetamine, or delta-9-tetrahydrocannabinol.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report concerning the proposed penalty and the costs or savings that are likely to result if the bill is enacted.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

Mr. Mortier believes that "as to its effect" should be added. I assume that's okay with you. If so, can you send the jacket back? Thanks.

It was our intent to have s. 885.235 (1k) apply in the same way as current s. 885.235 (1g) (intro.) does in cases under s. 885.235 (1g) (c), (cd), and (d), and I don't think that there is any equal protection problem with that. But because of the differences between s. 885.235 (1k) and s. 885.235 (1g) (intro.), perhaps they will be applied differently. It may turn on the meaning of "expert testimony as to its effect" in s. 885.235 (1g) (intro.). I interpreted that language as telling judges that they need not be concerned about the relationship between the BAC in the sample and the person's BAC generally, but I am not sure how that phrase has been construed. Perhaps Mr. Mortier can shed some light on that for me. In any event, if the differences between the two provisions are a problem, would adding "as to its effect" to the end of s. 885.235 (1k) eliminate it?

Section 73, which creates 885.235(1k)--

This creates a prima facie presumption, which is fine. Typically in OWI cases when we have a blood test or a breath test, we have to lay the foundation by an operator or expert that the test was performed in accordance with the correct procedure before we get the test into evidence. Once it is in evidence, then we get the presumption.

As a result, I'm concerned there may be a challenge raised because we are no longer required to lay the

foundation for a key piece of evidence dealing with an element of a crime (potentially). I don't have the time to research this problem, but that's the problem I see. It may be at least an equal protection problem because you're treating drugged offenders differently than drunk ones for no apparent reason--the rationale for both laws is the same.

Let me know if I've lost you...

Scot

Can you check to see if Mr. Mortier was referring to section 71 of the bill (as opposed to 72)? Section 72 (which amends s. 885.235 (4) of the statutes) does not appear to be related to this question. He may have intended to refer to section 71 of the bill (which creates s. 885.235 (1k) of the statutes).

Was it your intent in Section 72, w/respect to 885 (evidentiary values of tests) to allow us to proceed at a jury trial with just a certified copy of the blood test results on the question of 'detectable restricted/controlled substances' in the blood?

Just off the cuff, it seems the defense must still have a right to challenge the test results...I haven't done the legal research on whether this would pass constitutional muster. I suppose we'd be able to weather the equal protection challenges because these are controlled substances (unlike alcohol).

That's my 'quick' 2 cents worth. (This is a worthy effort!)

Dear DAs, Deputy DAs and ADAs,

Last week, I sent an e-mail offering the opportunity to comment on this final version of my drugged driving bill. Since many of you may have been unable to consider the legislation before my Thursday deadline due to your annual summer training conference, I thought it appropriate to extend the deadline so you might have that opportunity.

If you do have any thoughts or comments regarding the language of this proposal, please e-mail those to me before the end of the day on Thursday, JUNE 19TH. Thank you.
