**Subject:** Drafting Request

I would like to request a bill draft on behalf of Sen. Reynolds that repeals s. 100.45(4)(f) of the statutes. The intent of the legislation is to make Wisconsin law regarding the re-charging of mobile air conditioners more similar to federal law. Federal law allows for the "topping-off" of leaking mobile air conditioners, while Wisconsin law requires that such mobile air conditioners be repaired before they may be re-charged if a leak is suspected or diagnosed.

Please feel free to contact me if you have any questions.

State of Wisconsin  
2003 - 2004 LEGISLATURE

LRB-2964/1

RCT. 

**2003 BILL**

Gen

1 AN ACT ...; relating to: repair of motor vehicle air conditioners and truck trailer  
2 refrigeration equipment that contains ozone-depleting refrigerant.

---

*Analysis by the Legislative Reference Bureau*

Current law includes several provisions that relate to the use and release of substances that have been shown to deplete the atmosphere's ozone layer. These include a provision prohibiting a person from performing a repair that releases or may release ozone-depleting refrigerant from an air conditioner in a motor vehicle or from refrigeration equipment in a truck trailer unless the person satisfies several requirements. One requirement is that the person inspects the air conditioner or refrigeration equipment and repairs any leaks before adding ozone-depleting refrigerant to the air conditioner or refrigeration equipment.

This bill eliminates the requirement to inspect a motor vehicle air conditioner or truck trailer refrigeration equipment and repair any leaks before adding ozone-depleting refrigerant to the air conditioner or refrigeration equipment.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

3 SECTION 1. 100.45 <sup>X</sup>(4) (f) of the statutes is repealed.
