**To:** Nelson, Robert P.  
**Cc:** Kite, Robin  
**Subject:** FW: jcrar rule suspension

Bob:

Since you are doing Seratti's bill on this issue (LRB 03-2830) could you please do this one also?

There may be a time limit on it due to it being a JCRAR bill.

Thanks,

Mary

**To:** Gibson-Glass, Mary; Kite, Robin  
**Subject:** jcrar rule suspension

Mary and Robin:

Yesterday, August 19, JCRAR suspended s. NR 302.04 (5) (a) and (b), relating to wild river regulation. Subsection (5) provides as follows:

- (5) BRIDGES.** To preserve the natural condition and beauty and other incidents of navigation in the wild rivers, no bridges, except as provided in s. NR 302.07, shall be permitted unless they comply with the following requirements:
- (a) Reasonable access to a residential dwelling is not available without use of a bridge crossing and the applicant proves a need as defined in par. (b).
  - (b) Bridges shall be designed to accommodate foot traffic only unless an applicant proves a need, other than convenience, for vehicle passage over the bridge. Provided, the obtaining of property rights or ownership, or development of property to which access is sought, subsequent to the effective date of these rules does not prove need for vehicle passage over a bridge.
  - (c) Bridges shall be clear span and provide a minimum clearance of 5 feet between the ordinary high watermark and the stringer or lowest portion of the bridge, unless the department determines a lesser clearance is appropriate due to aesthetic conditions will not infringe on public rights in navigation on the wild river in the area of the proposed bridge placement.
  - (d) Bridges shall be constructed in a manner that results in the least impact on the natural condition and beauty of the river, taking into consideration materials necessary for the traffic and weight the bridge is to support.

So, JCRAR needs a bill draft, probably amending s. 30.26, Stats., that prohibits DNR from conditioning the placement of a bridge across a wild river on the notions of reasonable

access to a residential dwelling and of foot traffic only. [The JCRAR action was instigated by Rep. Seratti who wants ATV and snowmobile crossings over wild rivers.] A draft should be prepared for each house at the request of Rep. Grothman and Sen. Leibham. Thanks.

Let me know if you have any questions.

This bill is introduced as required by s. 227.19 (5) (e), stats., in support of the objections of the assembly committee on campaigns and elections on February 16, 2000, and of the senate committee on economic development, housing and government operations on February 14, 2000, and the objection of the joint committee for review of administrative rules on April 14, 2000, to the issuance of clearinghouse rule number 99-150 by the elections board. The proposed rule relates to the subject of disclosure and record-keeping requirements under the campaign finance law.

## 1999 ASSEMBLY BILL 464

September 14, 1999 - Introduced by Representatives SERATTI, ALBERS, MUSSER, PETROWSKI, SYKORA, KREIBICH, KELSO, BRANDEMUEHL, RYBA and GRONEMUS, cosponsored by Senator ZIEN. Referred to Committee on Tourism and Recreation.

1 AN ACT to create 30.26 (4) of the statutes; relating to: construction of certain  
2 bridges over wild rivers.

---

### *Analysis by the Legislative Reference Bureau*

Under current law, the legislature may designate rivers as part of the state's wild river system. The department of natural resources (DNR) administers the system to preserve, protect and enhance the rivers' natural beauty and unique recreational value. Currently portions of the Pike, Pine and Popple rivers are designated as wild rivers.

Under current rules promulgated by DNR, bridges, other than state and municipal highway bridges, may only be constructed over scenic rivers if they meet certain conditions. These conditions include requirements that the bridge is necessary for access to a dwelling and that the bridge results in the least impact possible on the natural condition and beauty of the river. The bridge must be limited to pedestrian use unless there is a need, other than for convenience, that vehicles be allowed on the bridge.

Under this bill, DNR may not prohibit or impose any requirements on the construction of a bridge over a wild river if the use of the bridge is limited to snowmobile operators, all-terrain vehicle operators or pedestrians, or any combination of these persons, and if the bridge is constructed in whole or in part by a snowmobile or all-terrain vehicle club.

**ASSEMBLY BILL 464**

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

Gen

1

AN ACT ...; relating to: suspending the department of natural resources rule related to limits on bridges over wild rivers.

2

*Analysis by the Legislative Reference Bureau*

Under current law, the legislature may designate rivers as part of the state's wild river system. The department of natural resources (DNR) administers the system to preserve, protect, and enhance the rivers' natural beauty and unique recreational value. Currently portions of the Pike, Pine, and Popple rivers are designated as wild rivers.

This bill prohibits DNR from promulgating a rule that conditions the placement of a bridge across a wild river on the need for a person to have access to a residential dwelling or that limits such a bridge to foot traffic only.

suspended

This bill is introduced as required by s. 227.26 (2) (f), stats., in support of the action of the Joint Committee for Review of Administrative Rules to suspend section 302.04 (5) (a) and (b), Wisconsin Administrative Code, a rule of the DNR, on August 19, 2003. The rule provides that bridges, other than state and municipal highway bridges, may only be constructed over scenic rivers if they meet certain conditions. These conditions include requirements that the bridge is necessary for access to a dwelling and that the bridge results in the least impact possible on the natural condition and beauty of the river. The bridge must be limited to pedestrian

use unless there is a need, other than for convenience, that vehicles be allowed on the bridge.

---

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

1 SECTION 1. 30.26 (4)<sup>X</sup> of the statutes is created to read:

2 30.26 (4) RESTRICTION ON DEPARTMENT.<sup>✓</sup> The department may not prohibit or  
3 impose any requirements on the construction of a bridge over a wild river that limit

4 the use of the bridge to persons who need access to a residential dwelling ~~of that limit~~

5 ~~the use of the bridge to pedestrians~~ the use of the bridge to pedestrians ← plain period
