Joe,

Rep. Stepp will be requesting a companion draft to LRB 3215/1 relating to the Town of Caledonia electric utility payment.

Thank you,
Janine

OK. Please do give us permission to have your language drafted into a Senate companion. (Why don't you just respond to this email and cc the drafter)

Thanks - Jay

Jay,

Sorry for the delay in getting back to you, but I left at 4:30 p.m. last Thursday and I don't work on Fridays. Companion bills would be great. I talked to Bonnie about adding Honadel and Plale to the bills and she didn't think it was necessary. She feels that since the legislation only affects Caledonia, it should be a Ladwig/Stepp bill. Unless you can convince her otherwise, I feel she just wants to go with the two authors.

Would you like to get the companion drafted before I introduce the Assembly bill? Then they could be introduced at the same time.

Thanks,
Janine

Hi Janine,

Just following up from yesterday. We should definitely do companion bills. I know we talked about it being a Ladwig/Stepp bill, but we also considered seeing if we wanted to make it a Ladwig, Honadel/Stepp, Plale bill (since the actual plant is in their neck of the woods). Have you contacted them? Should we contact Plale and you contact Honadel?

Thanks - Jay

2003 BILL

Regen

- 1 AN ACT *to create* 79.04 (7) (b) 2. of the statutes; **relating to:** utility aid payments
- 2 to a municipality that is contiguous to a site on which an electric generating
- 3 facility is located.

Analysis by the Legislative Reference Bureau

Under current law, each municipality and county in which a power production plant is located receives annually a payment from the state based on either the value or the megawatt capacity of the production plant, depending, generally, on when the power production plant began operation. Beginning with payments in 2005, if a baseload electric generating facility is built after December 31, 2003, and has at least a 50 megawatt capacity, the municipality and county in which the facility is located will each receive annually a payment equal to the facility's megawatt capacity multiplied by \$600.

Under this bill, beginning with payments in 2005, if a baseload electric generating facility with at least a 50 megawatt capacity is built after December 31, 2003, on a site that is contiguous to a municipality in which the facility is not located, the contiguous municipality will receive annually a payment equal to the facility's megawatt capacity multiplied by \$100.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
