5 **relating to:** making various miscellaneous changes to the Health Insurance
6 Risk-Sharing Plan, granting rule-making authority, and providing a penalty.

Analysis by the Legislative Reference Bureau

The Health Insurance Risk-Sharing Plan (HIRSP) provides major medical health insurance coverage for persons who are covered under Medicare because they are disabled, persons who have tested positive for human immunodeficiency virus, and persons who have been refused coverage, or coverage at an affordable price, in the private health insurance market because of their mental or physical health condition. Also eligible for coverage are persons who do not currently have health insurance coverage, but who were covered under certain types of health insurance coverage for at least 18 months in the past.

Premiums paid by covered persons fund 60 percent of the operating costs of HIRSP and health insurer assessments and health care provider payment discounts fund the remaining 40 percent of operating costs. HIRSP provides premium and deductible subsidies for covered persons with annual household incomes below \$25,000. The subsidies are funded equally by health insurer assessments and health care provider payment discounts. HIRSP is administered primarily by the Department of Health and Family Services (DHFS), but a board of governors (board) and a plan administrator also have certain responsibilities and powers with respect to HIRSP administration.

This bill makes the following changes to HIRSP:

1. Under the bill, as a condition of coverage of their prescription drugs under HIRSP, each drug manufacturer or labeler is required to pay an assessment that is based on the total claims paid by HIRSP in the previous calendar year to pharmacies and pharmacists for the manufacturer's or labeler's drugs. The assessment amount for each claim is equal to the rebate amount that the manufacturer or labeler pays for the drug under Medical Assistance. Under the bill, the 40 percent of HIRSP's operating costs that remain after premiums are used to pay 60 percent of the costs are first to be paid with the drug manufacturer and labeler assessments. The remainder of the 40 percent of the costs are paid, in equal proportions, by the health insurer assessments and the health care provider payment discounts. The bill allows the Pharmacy Examining Board to assess a forfeiture of not more than \$1,000 per day against a drug manufacturer or labeler that fails to pay an assessment for HIRSP.

ASSEMBLY BILL

2. The bill removes most of the administrative responsibilities from DHFS and transfers them to the board. For example, under current law, DHFS may establish different deductible amounts and a different coinsurance percentage from what is provided in the statutes, while under the bill the board may do so; under current law, DHFS must establish payment rates by adding an enhancement determined by DHFS to the allowable charges under Medical Assistance, while under the bill the board establishes the allowable charges in the same manner and must consult with DHFS; under current law, DHFS establishes a program budget in consultation with the board and may implement the budget only if it is approved by the board, while under the bill the board establishes the program budget and must consult with DHFS in deriving the provider payment rate; under current law, prior to each plan year DHFS must estimate the operating and administrative costs of HIRSP and set premiums, insurer assessment amounts, and provider payment rate discounts, while under the bill the board performs these functions, as well as setting the drug manufacturer and labeler assessment amounts; and under current law, DHFS is required to promulgate rules for the operation of HIRSP and must consult with the board before promulgating any rules related to HIRSP, while under the bill the board is required to promulgate rules for the design and operation of HIRSP, consulting with DHFS as necessary, and DHFS may promulgate a rule only if the board has approved the proposed rule.

3. Under current law, the secretary of health and family services, or his or her representative, is the chairperson of the board. The bill provides that the board will annually select the chairperson. The bill also adds a representative of Pharmaceutical Research and Manufacturers of America to the board, the members of which are appointed by the secretary of health and family services.

4. Under current law, expenses covered under HIRSP and exclusions are set out in the statutes. The bill eliminates those provisions and requires the board to establish by rule the plan design, including covered expenses and exclusions.

5. Under current law, DHFS may select the plan administrator in a competitive bidding process. The bill requires the board to select the plan administrator in a competitive, request-for-proposals process and allows the board to contract with other persons to provide professional services to the board and HIRSP.

6. The bill allows the board to establish for covered persons with annual household incomes over \$100,000 a separate schedule of premium rates that are higher than the rates for other covered persons. The additional premium collected must be used to further reduce the premiums paid by lower-income covered persons who receive a subsidy for premiums and deductibles.

7. Under current law, a person is eligible for HIRSP coverage if he or she is rejected for coverage by one or more insurers, has coverage canceled by one or more insurers, or receives notice of a substantial reduction in coverage or a 50 percent increase in premium. Under the bill, a person is eligible if he or she is rejected for coverage by two or more insurers or if he or she is rejected for coverage by at least one insurer in addition to having coverage canceled or reduced, or premiums increased, by one or more insurers.

ASSEMBLY BILL

8. Under current law, a person is not eligible for coverage under HIRSP if he or she is eligible for coverage provided by an employer. The bill requires DHFS to verify information that an applicant provides about his or her employment and whether health care coverage is available through that employment and to periodically verify the information if the person receives coverage under HIRSP. DHFS must maintain a data base with the information and submit a quarterly report to the board on the information.

9. Finally, the bill requires that any federal grant moneys received by the state under the Trade Adjustment Assistance Reform Act of 2002 be used for HIRSP to pay plan costs before any costs are paid with premiums or insurer and drug manufacturer and labeler assessments and provider payment discounts.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
