Analysis by the Legislative Reference Bureau

This bill makes various changes to the statutes governing the organization and funding of public libraries, including the following:

1. Currently, if the territory within a public library system has a population of less than 100,000 as a result of the withdrawal or realignment of participating municipalities or counties, the system must realign with an existing system within two years. This bill provides that if a system has fewer than three participating counties and a population of less than 200,000 as a result of the withdrawal or realignment of participating municipalities or counties, the system must realign with an existing system within two years.

2. Current law requires a public library system to employ a head librarian who is certified by the Department of Public Instruction (DPI). Under this bill, the head librarian must be present in the library for at least ten hours each week that the library is open, less leave time.

SENATE BILL 498

3. Beginning in 2006, the bill requires a public library system to spend at least \$2,500 annually on library materials and be open to the public an average of 20 hours each week.

4. The bill allows a public library system to adopt a plan requiring a participating public library to compensate another participating public library whenever the latter public library provides library services to residents of the municipality or county that maintains the former public library.

5. The bill allows two public library systems to merge with the approval of each system board and the county boards of the participating counties. Under current law, the approval of 51 percent of the participating public libraries in the system is also required.

6. The bill prohibits a public library system from being established if its establishment would cause the number of systems to exceed the number in existence on the bill's effective date.

7. Under this bill, if a city or village that is entirely located in a county that maintains a consolidated public library for the county wishes to establish a new public library or participate in a joint library, it must, in addition to the existing requirements, obtain the approval of the county library board and the county board of supervisors. If either disapproves, the city or village may appeal the decision to DPI.

8. Under this bill, joint library agreements must do all of the following:

a. Include a procedure for adjusting the membership of the board to ensure that it remains representative of the populations of the participating municipalities.

b. Name one of the participants as the library's fiscal agent.

c. Include a procedure for the distribution of the library's assets and liabilities if the library is dissolved.

9. The bill provides that, if a joint library is created on or after the bill's effective date, each municipality and county participating in the joint library must levy a tax for public library service at the same rate.

10. Under current law, a county (other than a county with a population of at least 500,000) that does not maintain a consolidated public library for the county and that contains residents who are not residents of a municipality that maintains a public library must pay to each public library in the county an amount equal to at least 70 percent of the cost of library use by these county residents. This bill requires that these payments also be made to each public library in an adjacent county, other than a county with a population of at least 500,000.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
