Wed Am

1 **Relating to:** declaring June Kids Safety Month.

2 Whereas, research shows that nationally from 1987 to 2000, the unintentional
3 injury death rate for children ^{age} 14 and under has dropped by nearly 40% ^{percent}; and

4 Whereas, in this region, the rate was closer to 30% ^{percent}; and

5 Whereas, while ^{this is} one of the most dramatic declines ever seen in a children's
6 health issue, unintentional injuries remain the number one killer of children ^{age} 14 and
7 under in the United States; and ^{years}

8 Whereas, children are at greater risk than adults of recreational injuries
9 because they are unable to assess the risks involved and have less coordination,
10 slower reaction times, and less accuracy; and

11 Whereas, children develop at different rates, both physically and
12 psychologically, and a less ^{developed} child competing against a more ^{mature} child
13 of the same age and weight is at a disadvantage and may be at greater risk for injury;
14 and

1 Whereas, 40⁷/₁₀ percent of all unintentional injury-related deaths occur from May
 2 to August and the greatest summertime risks include drowning, bike crashes, falls,
 3 pedestrian incidents, and motor vehicle crashes, and July is the deadliest time for
 4 childhood unintentional injury, 12⁷/₁₀ percent of unintentional injury-related deaths

5 ~~occur~~ during this month alone; and *with*
 6 *occurring*
 7 Whereas, older children experience the greatest increase in unintentional
 8 injury-related death during the summer months; and

8 Whereas, preventable injuries take an enormous financial, emotional, and
 9 social toll not just on the injured children and their families, but also on society as
 10 a whole; and

11 Whereas, these injuries are not inevitable, they are preventable; and

12 Whereas, children's safety is a concern every day, no matter what time of the
 13 year, *and* all Wisconsin citizens are called on to renew the commitment to place a priority
 14 on child injury prevention; now, therefore, be it
