

State of Wisconsin

LEGISLATIVE REFERENCE BUREAU

RESEARCH APPENDIX - **PLEASE DO NOT REMOVE FROM DRAFTING FILE**

Date Added To File: 08/25/2003 (Per: DAK)

☞ The 2003 drafting file for LRB 03-2989/2

has been copied/added to the 2003 drafting file for

LRB 03-3163

☞ The attached 2003 draft was incorporated into the new 2003 draft listed above. For research purposes, this cover sheet and the attached drafting file were copied on yellow paper (darkened - auto centered - reduced to 90%), and added, as a appendix, to the new 2003 drafting file. If introduced this section will be scanned and added, as a separate appendix, to the electronic drafting file folder.

☞ This cover sheet was added to rear of the original 2003 drafting file. The drafting file was then returned, intact, to its folder and filed.

Kennedy, Debora

From: Rothwell, Julie
Sent: Monday, July 14, 2003 11:02 AM
To: Kennedy, Debora
Subject: Tuberous Sclerosis

Hi Debora,

Here is the information for the Senate/Assembly Resolution on Tuberous Sclerosis.

107th Congress
Points on Tuber...

Thank you!

Julie A. Rothwell
State Senator Carol Roessler's office
18th Senate District

107th Congress Points on Tuberous Sclerosis

***Senator Roessler would like a Senate Assembly Resolution**

Whereas at least two children born each day will be affected with tuberous sclerosis;

Whereas nearly one million people worldwide are known to have tuberous sclerosis;

Whereas tuberous sclerosis affects all races and ethnic groups equally;

Whereas tuberous sclerosis is caused by either an inherited autosomal disorder or by a spontaneous genetic mutation;

Whereas when tuberous sclerosis is genetically transmitted as an autosomal dominant disorder, a child with a parent with the gene will have a 50-percent chance of inheriting the disease;

Whereas two-thirds of the cases of tuberous sclerosis are believed to be a result of spontaneous mutation, although the cause of such mutations is a mystery;

Whereas diagnosis takes an average of 90 days with consultation of at least three specialists;

Whereas tuberous sclerosis is the largest known genetic cause of epilepsy;

Whereas tuberous sclerosis is now the second largest identifiable genetic cause of autism;

Whereas tuberous sclerosis frequently goes undiagnosed because of the obscurity of the disease and the mild form the symptoms may take; and

Whereas the Congress as an institution, and Members of Congress as individual, are in unique positions to help raise public awareness about the need for increased funding for research, detection, and treatment of tuberous sclerosis and to support the fight against tuberous sclerosis.;

Whereas all Americans should take an active role in the fight against tuberous sclerosis by all means available to them, including early and complete clinical testing and investigating family histories;

Whereas Wisconsin has the responsibility to endeavor to raise awareness about the importance of the early detection of, and proper treatment for, tuberous sclerosis;

The role played by national and community organizations and health care providers in promoting awareness of the importance of early diagnosis, testing, and ongoing screening should be recognized and applauded;

Whereas as a state and nation we need to continue to consider ways to improve access to, and the quality of, health care services for detecting and treating tuberous sclerosis.

Hi Debora,

Here is the revised version of the Joint Resolution, I hope it is Ok.
Thanks
Julie

107th Congress
Points on Tuber...

Tuberous Sclerosis

***Senator Roessler would like a Senate Assembly Resolution**

Whereas at least two children born each day will be affected with tuberous sclerosis;

Whereas nearly one million people worldwide are known to have tuberous sclerosis;

Whereas tuberous sclerosis affects all races and ethnic groups equally;

Whereas tuberous sclerosis is caused by either an inherited autosomal disorder or by a spontaneous genetic mutation;

Whereas when tuberous sclerosis is genetically transmitted as an autosomal dominant disorder, a child with a parent with the gene will have a 50-percent chance of inheriting the disease;

Whereas two-thirds of the cases of tuberous sclerosis are believed to be a result of spontaneous mutation, although the cause of such mutations is a mystery;

Whereas diagnosis takes an average of 90 days with consultation of at least three specialists;

Whereas tuberous sclerosis is the largest known genetic cause of epilepsy;

Whereas tuberous sclerosis is now the second largest identifiable genetic cause of autism;

Whereas tuberous sclerosis frequently goes undiagnosed because of the obscurity of the disease and the mild form the symptoms may take; and

Whereas the Congress as an institution, and Members of Congress as individual, are in unique positions to help raise public awareness about the need for increased funding for research, detection, and treatment of tuberous sclerosis and to support the fight against tuberous sclerosis.;

Resolved by the Senate, the Assembly concurring, That

- 1) All Americans should take an active role in the fight against tuberous sclerosis by all means available to them, including early and complete clinical testing and investigating family histories;
- 2) The role played by national and community organizations and health care providers in promoting awareness of the importance of early diagnosis, testing, and ongoing screening should be recognized and applauded;

Resolved that Wisconsin does hereby have the responsibility to raise awareness about the importance of the early detection of, and proper treatment for, tuberous sclerosis;

Resolved that as a state and nation we need to continue to consider ways to improve access to, and the quality of, health care services for detecting and treating tuberous sclerosis.

~~Resolved that the members of the senate and assembly acknowledge that Wisconsinites~~

D-NOTE

To Senator Roessler:

I have revised the "resolving" provisions proposed for this draft to conform more closely to the wording of most Wisconsin joint resolutions and to ensure that the resolution does not commit the legislature to acts that, practically or in theory, cannot be carried out. For example, instead of resolving that "Wisconsin does hereby have the responsibility to raise awareness..." I have used wording that states "members of the senate and assembly recognize that it is necessary in Wisconsin to raise awareness..."

Please review, and don't hesitate to call if you have questions.

Hi Debora,

I have some changes for LRB 2989/, tuberous sclerosis joint resolution. On page 2, line 6 both of the Congress's should say Senate instead and in line 7 after public awareness about, it should be the instead of he. Other than that it looks good, thanks!
