1 AN ACT...; relating to: abolition of the Department of Electronic Government  
2 and making appropriations.

*Analysis by the Legislative Reference Bureau*

**STATE GOVERNMENT**

**OTHER STATE GOVERNMENT**

This bill eliminates DEG and transfers the functions of DEG to DOA. The bill also creates a statutory division of DOA to be called the Division of Information Technology that assumes the functions of DEG. Currently, DEG manages the state's information technology and telecommunications services.

With certain exceptions, executive branch agencies other than the UW System are currently required to obtain information technology processing services from DEG. DEG may assess fees for its services without limitation and may remove information technology functions from executive branch agencies and assume control of the functions directly. DEG's budget for most functions is limited only by the revenue it receives. DEG may also provide certain services to state authorities, local governments, units of the federal government, private schools, postsecondary institutions, museums, zoos, and other entities in the private sector. In addition, DEG may make purchases without public notice or solicitation of bids or proposals and need not adhere to certain other purchasing requirements that apply to other state agencies. Under this bill, all requirements that apply with respect to DEG

continue to apply in DOA and DOA may exercise the powers and budgetary authority of DEG.

Current law also vests certain powers relating to information technology management with the chief information officer, who serves as the secretary of DEG. Most information technology and telecommunications purchases by executive branch agencies other than the UW System are subject to prior approval of the chief information officer. This bill transfers the powers of the chief information officer to DOA. Currently, DEG is authorized to employ a deputy, executive assistant and three unclassified division administrators. This bill deletes the deputy, executive assistant, and administrators, but permits DOA to employ one additional unclassified division administrator. Currently, the Information Technology Management Board is attached to DEG. The board advises DEG and hears appeals by executive branch agencies concerning actions of the chief information officer. This bill attaches the board to DOA and directs the board to advise the Division of Information Technology and to hear appeals by executive branch agencies concerning actions of DOA.

Currently, no state agency in the executive branch, other than the Board of Regents of the UW System, may procure telecommunications materials, supplies, equipment or services from any source except DEG unless DEG permits otherwise. No executive branch agency, except the Board of Regents of the UW System, may enter into a contract for telecommunications materials, supplies, equipment or services without approval of the contract by the state chief information officer (secretary of electronic government). DEG may enter into statewide master contracts for telecommunications materials, supplies, equipment or services and may require every executive branch agency, except the Board of Regents of the UW System, to obtain telecommunications materials, supplies, equipment and services under a master contract. The chief information officer may assess any executive branch agency, except the Board of Regents of the UW System, for the costs incurred by DEG of systems or devices relating to telecommunications that are developed, operated or maintained by DEG. The Information Technology Management Board, which is an autonomous board attached to DEG, may monitor progress in achieving goals for telecommunications development set by executive branch agencies other than the Board of Regents of the UW System.

This bill deletes exemption of the Board of Regents of the UW System from all these laws, thereby making the Board of Regents' actions subject to the authority of DOA and the Information Technology Management Board.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

STATE GOVERNMENT

OTHER STATE GOVERNMENT

This bill eliminates DEG and transfers the functions of DEG to DOA. ~~The bill also creates a statutory division of DOA to be called the Division of Information Technology that assumes the functions of DEG.~~ Currently, DEG manages the state's information technology and telecommunications services.

With certain exceptions, executive branch agencies other than the UW System are currently required to obtain information technology processing services from DEG. DEG may assess fees for its services without limitation and may remove information technology functions from executive branch agencies and assume control of the functions directly. DEG's budget for most functions is limited only by the revenue it receives. DEG may also provide certain services to state authorities, local governments, units of the federal government, private schools, postsecondary institutions, museums, zoos, and other entities in the private sector. In addition, DEG may make purchases without public notice or solicitation of bids or proposals and need not adhere to certain other purchasing requirements that apply to other state agencies. Under this bill, all requirements that apply with respect to DEG

continue to apply in DOA, and DOA may exercise the powers and budgetary authority of DEG. *DOA may also make purchases of materials, supplies, equipment, and*

Current law also vests certain powers relating to information technology management with the chief information officer, who serves as the secretary of DEG. Most information technology and telecommunications purchases by executive branch agencies other than the UW System are subject to prior approval of the chief information officer. This bill transfers the powers of the chief information officer to DOA. Currently, DEG is authorized to employ a deputy, executive assistant, and three unclassified division administrators. This bill deletes the deputy, executive assistant, and administrators, but permits DOA to employ one additional unclassified division administrator. Currently, the Information Technology Management Board is attached to DEG. The board advises DEG and hears appeals by executive branch agencies concerning actions of the chief information officer. This bill attaches the board to DOA and directs the board to advise the Division of Information Technology and to hear appeals by executive branch agencies concerning actions of DOA.

Currently, no state agency in the executive branch, other than the Board of Regents of the UW System, may procure telecommunications materials, supplies, equipment, or services from any source except DEG unless DEG permits otherwise. No executive branch agency, except the Board of Regents of the UW System, may enter into a contract for telecommunications materials, supplies, equipment, or services without approval of the contract by the state chief information officer (secretary of electronic government). DEG may enter into statewide master contracts for telecommunications materials, supplies, equipment, or services and may require every executive branch agency, except the Board of Regents of the UW System, to obtain telecommunications materials, supplies, equipment, and services under a master contract. The chief information officer may assess any executive branch agency, except the Board of Regents of the UW System, for the costs incurred by DEG of systems or devices relating to telecommunications that are developed, operated, or maintained by DEG. The Information Technology Management Board, which is an autonomous board attached to DEG, may monitor progress in achieving goals for telecommunications development set by executive branch agencies other than the Board of Regents of the UW System.

This bill deletes exemption of the Board of Regents of the UW System from all these laws, thereby making the Board of Regents' actions subject to the authority of DOA and the Information Technology Management Board.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***
