I do think that a nonstatutory provision would be required. Let me know if you want me to proceed with this draft.

A question on one of DNR's appropriations.....The appropriation under s. 20.370(7)(fa) requires certain amounts to be expended for historic sites, etc. As this is a GPR appropriation and we need the funding reduction, we will be providing \$0 in FY04 in this appropriation. Some funding will be restored in FY05.

I assume we need to have at least a nonstatutory provision drafted so that the department is not required to spend the amounts in FY04, since no funding would be provided. Is this correct?

Please let me know if you have any questions or need more information.

Thanks,

Kirsten
