TRANSPORTATION

DRIVERS AND MOTOR VEHICLES

Current law requires ~~the Department of Transportation~~ DOT to conduct a motor vehicle emission inspection program (program) in counties in which the air quality does not meet certain federal standards. Under the program, most motor vehicles that are subject to emission limitations established by ~~the Department of Natural Resources~~ must pass periodic emission inspections and may not be registered by DOT unless they have passed these inspections. DOT is required to contract with third parties to perform vehicle emission inspections under the program. The costs of administering the program, including contracting for emission inspections, are paid from the transportation fund.

DNR

This bill provides that a portion of the costs of administering the program, including contracting for emission inspections, in fiscal year 2004-05 are paid from the petroleum inspection fund.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

ATTN: Benjamin Vail

The prior draft created an appropriation effective the second year of the fiscal biennium. Attorney Fast brought to my attention the problem this presents for DOA in preparing the schedule for the biennium. Accordingly, I have redrafted this request to create the appropriation for the entire biennium, with the expectation (based upon the drafting instructions) that the amounts DOA will enter in the schedule for the first year of the biennium will be "-0-". The only change in the attached draft is to the effective date provisions and the second paragraph of the analysis.

Aaron,

Please remove sections 2 and 3 from LRB 1771/2.

The appropriation that is being created should be ongoing, not one-time for just FY05. The motor vehicle emission inspection and maintenance program is required to be ongoing and the funding from the petroleum inspection fund would continue as well.

I'm sorry if the drafting instructions weren't clear on this draft, and I just got a chance to glance at it.

Let me know if you have any questions or need more clarification.

Thanks,

Kirsten
