Re the Shared Revenue and Related Programs Reduction in 2003

Walt Whitman said, "consistency is the hobgoblin of small minds."

Should s. 79.03(3c)(f) be amended similarly to ss. 79.03 (4) [page 2, lines 14 &15] and 79.058 (3)(e) [page 4, line 9]? Technically, it's not really necessary since the per capita payment rates under shared revenue will exceed the estimated reduction rate of \$0.91. However, I thought you may want to throw it on the technical list out of respect for Walt Whitman. Think what you want to about the size of my mind.

Subject: BCPL land investment draft reconciliation

Rick,

In flipping through the bill, it appears that we missed a reconciliation item related to the draft allowing the Board of Commissioners of Public Lands to invest in land in the state and the draft to allow the board to delegate investment authority to the State of Wisconsin Investment Board.

On page 450 of LRB 1922/1, line 22-23, the section regarding investment in land in the state, it refers to the limitation established in par. (c). However, in looking at page 451, lines 8 to 19, it would appear that in reconciling the two drafts, par. (c) became par. (d).

Could you confirm this? We can then write up an errata form on it.

Thanks,

Since the division is retained, there is no need to amend s. 45.43 (7) (b). I should have taken it out when the decision was made by DOA to retain the division of MRS. Nonetheless, there is probably no practical harm, since the duty is still on DOA and DMRS is a DOA division.

Everywhere else in the bill, it appears that DMRS authority under the transfer is unchanged. Is this particular change intended or might it be an inadvertent repeal? Please let me know your thoughts.

On closer inspection, Fred is correct. Section 281 59 (1) (c) tracks s. 106.215 (1) (e) word for word except that it does not contain a reference to school districts. The change was inadvertent. The intent was to find another definition that matches the repealed definition. The provisions in the draft can be fixed by inserting "school board or" before "governing body . . ." in ss. 15.105 (4) and 91.19 (6s) (a) (intro.).

Hi Gordon,

This draft has two sections (that I've seen so far anyway) that change a cross reference regarding a definition of local unit of government, one in chapter 15 for the Public Records Board and one in Chapter 91 relating to farmland preservation. Fred Ammerman took a look at this and he tells me the proposed new definition would exclude school districts, which are included in the current definition. Was this change intentional or was it an oversight?

Thanks

Erin:

Even Mark admitted that even though in his opinion transfer language is not necessary, such language would do no harm. So I agree with you that to be on the safe side we should draft a technical amendment.

Jeff and Gordon,

Did you happen to read through Mark Mansfield's (very long) response (sent on 2/26/03) to this? I'm wondering if his comments have changed your opinion as to whether we need to get language drafted to affect a one-time transfer?

If you do remain convinced that we need some language in the bill to affect a transfer, I suppose the best thing to do would be to just go ahead and draft a technical amendment, in case it's decided that we do in fact need it. Gordon suggested some language in his 2/21/03 response to Josh Hummert; I think that language would be workable. In the end, if we include it as a technical amendment even if it turns out to not be necessary, I don't think it would cause any harm.

If you have other questions, please call me.

Thanks,

Erin,

Gordon Malaise and I remain of the view that if DOA wants to transfer moneys from the account under s. 20.445 (1)(m), stats. to the accounts under s. 20.445 (1) (n), (o) or (p), stats., some additional language would

be needed. Unless you want a sum certain, presumably the moneys to be transferred would be the revenues attributable to....., as determined by the secretary of administration. We assume a one-time transfer would be sufficient.

Mark,

What is your take on this? This is actually a little different than the issue raised by Jeff K in the drafter's note for draft 1264/1 [transfer of monies from (1)(m) to (1)(n)/direct credit of reimbursements to (1)(n)]. Since we're not repealing (1)(m), the unencumbered balance in (1)(m) associated with UI, ER and WC would not lapse to the general fund at the end of FY03; rather, they would remain in (1)(m). I'm wondering if the transfer of revenues from 20.445 (1)(m) to 20.445 (1)(n), 20.445 (1)(o) and 20.445 (1)(p) could be handled administratively, since we're not repealing (1)(m) and all of these appropriations are federal continuing appropriations - ?

If not, then we should get a technical amendment drafted soon.

Troy - I wanted to ask Mark his opinion because he was quite involved in this draft.

Josh:

Yes, in fact, Jeff Kuesel raised that possibility in his drafter's note to LRB-1264/1. Jeff wrote that if a one-time transfer from s. 20.445 (1) (m) to (n) is desired, then we need to redraft. Otherwise, we assumed that any future federal moneys can be credited directly to the new appropriations.

Ordinarily, either a sum certain or the entire unencumbered balance in an appropriation is transferred. In this case, because some moneys will stay in (m) and other moneys are going to (n), (o), and (p), we will need to tailor the language to read something like "(t)he unencumbered balance in s. 20.445 (1) (m) that is attributable to federal moneys received for unemployment compensation administration, as determined by the secretary of administration, is transferred to s. 20.445 (1) (n)." And similar language for worker's compensation and equal rights activities.

We can probably handle this in a technical amendment. Would you like us to draft one?

Gordon, I received this question regarding appropriation changes for DWD. Can you provide any insight as to whether any additional statutory language is required?

Thanks,

Appropriation 141 [20.445 (1)(m)] is currently a PR-F continuing appropriation shared by Equal Rights, WC, and UI. As a part of DWS appropriation restructuring, these current components of 141 will be moved to other appropriations -- UI's share will become part of the existing 20.445 (1)(n) and the ER and WC portions will be moved to new appropriations 20.445 (1)(o) and 20.445 (1)(p), respectively. If the ledgers associated with the current components of appropriation 141 would have revenue in them at the end of the year, do we need statutory authority to move that revenue from 20.445 (1)(m) to 20.445 (1)(n), 20.445 (1)(o) and 20.445 (1)(p)?
