Sounds good to me.

Seems like putting everything in second fiscal year would do the trick since the appropriation is biennial.

Good question--they are biennial amounts all for 2004-05 (no savings were assumed in 2003-04, so there would be no fiscal effect in 2003-04). I hope that makes sense. Let me know if you have any further questions about this (or anything else).

Kim:

Are these amounts the total to be split over the two fiscal years or are they the amounts for each fiscal year?

Assuming in both scenarios that A1 is adopted, here's my fiscal effect:

Current Law: You would need to add back an additional \$135,100 GPR (\$21,000 under B and \$114,100 under C).

Governor: You would need to add back an additional \$84,800 GPR (\$5,900 under B and \$78,900 under C).

20.435(4)(e) would need to be increased by these amounts.

Let me know if you need anything else!!

Subject: Budget amendments

Hi, Kim:

I need your help again. I have two amendments that relate to the Disease Aids program. One is to go back to current law, and the other is to go back to the original budget, but do include the reestimates. Can you tell me what appropriation amount changes I would need to make for those two? Thank you!

Pam
