Subject: Budget amendment

Hi Pam,

Senator Meyer would like a budget amendment drafted relating to Badger Care.

Specifically, he would like AB 129 to be drafted as an amendment. AB 129 relates to exempting amounts claimed for depreciation for purposes of calculating farm and self-employment income under the Medical Assistance and Badger Care health care programs.

Please let me know if you have questions or need additional information.

Thanks,

ASSEMBLY BILL 129

the federal Temporary Assistance for Needy Families (TANF) program on July 16, 1996. Generally, individuals who qualify under the AFDC-MA category are certain children under 19 years of age, their caretaker relatives, and pregnant women in the eighth or ninth month of pregnancy.

2. *AFDC-related MA.* This category includes certain children under the age of 19, their caretaker relatives, and pregnant women throughout the entire pregnancy who meet the income requirements of the AFDC program that were in effect on July, 16, 1996, without regard to assets, but who would not have received an AFDC payment. Also eligible under this category are children under the age of 18 and pregnant women whose incomes do not exceed 133.33% of the maximum payment under the AFDC program, and whose assets do not exceed certain asset limits.

3. *Healthy Start.* This category includes children between the ages of six and 19 whose incomes do not exceed 100% of the federal poverty line, children under the age of six and pregnant women whose incomes do not exceed 133.33% of the federal poverty line, and children under the age of six and pregnant women whose incomes do not exceed 185% of the federal poverty line.

The BadgerCare program provides health care coverage to eligible low-income children who do not reside with a parent and to eligible low-income families. A child or family is generally considered low-income if the child's or family's income does not exceed 185% of the poverty line.

Currently, in calculating an individual's income for the MA or BadgerCare program, if the individual has farm or self-employment income, DHFS calculates the amount of that income by adding the amount that the individual claimed for depreciation to the amount of the individual's net taxable income.

This bill prohibits DHFS from adding any amounts claimed for depreciation to an individual's net taxable farm or self-employment income for purposes of determining whether an individual meets the income limits for the MA program under the AFDC-MA, AFDC-related MA, or Healthy Start eligibility categories or for the BadgerCare program.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
