DAK/RPN

3. Increase the personal care allowance by \$5 per month, and fund it by transferring the DATCP Consumer Protection Services to DOJ. (LFB Paper 156 (Page 92-95, Comparative Summary of Budget Recommendations, June 2003).

Brownfields-(Representative Balow's office worked with Kendra Bonderud from Fiscal Bureau on this.)

In general, this amendment would take us back to the Governor's proposal in regards to Brownfields with the exception of moving the program from DNR to Commerce.

Provisions of amendment:

-Increase the Vehicle Environmental Impact Fee from \$9 to \$10.50 and remove the sunset date. Subsequently, restore all cuts made by Joint Finance under this provision, including reductions in FTE positions beyond the 7.0 FTE in the Governor's recommendation (pg. 480).

-Provide \$6,000,000 in general bonding authority to conduct remedial action at contaminated sites, thus increasing DNR's general obligation bonding from \$41 million to \$47 million.

-Restore the DNR Air and Waste Division operations appropriation from the environmental management account to \$3,868,800 annually. (JFC cut it by \$1,120,000 SEG annually.) Restore any FTE reductions proposed by JFC. (Second paragraph on pg. 487).

RJR

**DOJ-**

1. Remove the lapse of \$2.775 million of program revenue to the general fund from the PR generated by the \$2 increase in the Crime Laboratory and Drug Law Enforcement Assessment. Send the PR to crime labs, not the general fund (JFC-Motion 580, page 416, item #7 of comparative summary).

RJR

2. Again dealing with the PR increase with the Crime Laboratory and Drug Law Enforcement Assessment. The budget amendment should keep the lapse, but also raise the fee again to an amount (approximately \$8-\$9) that would generate the \$2.775 million was taken from the crime lab & DNA analysis account by Finance.

Description of amendment: **Give full effect to referenda held within last year to take effect in coming school year. See explanation below.**

**Without this clarifying amendment, schools who have held referenda in the past year in order to increase spending above the revenue limit will have to add the referendum amount to the new, lower limit from LFB paper 605. This amendment should provide that the referendum would have the effect on total allowed school district spending that was intended by the voters when they approved the referendum. In other words, the spending limit of a of a school which has passed a referendum in the past year which is only intended to take effect for the first time in the coming school year will be the referendum amount added to what the spending limit would have been if LFB Paper 605 had not been enacted. Without this amendment, the intent of voters in a valid referendum would be ignored.**

**There would be no additional state funds, as the appropriation is unchanged and only the distribution of funds between districts is effected, and even that only in the second year of the biennium, when the new amount becomes part of the base for general school aid purposes. The first year, it would be all local money, as the voters were aware when they approved the referendum.**
