TO 2003 ASSEMBLY BILL 344**

June 24, 2003 - Offered by Representatives KREIBICH, UNDERHEIM and SCHNEIDER.

1     **AN ACT** *to create* 36.25 (46) and 252.09 of the statutes; **relating to:** requiring  
2           college students to be informed about meningococcal disease and hepatitis B  
3           and requiring colleges to maintain certain records about the vaccination status  
4           of students.

---

***Analysis by the Legislative Reference Bureau***

This substitute amendment requires all Wisconsin colleges and universities to provide to all enrolled students each year detailed information on the risks associated with meningococcal disease and hepatitis B and the availability and effectiveness of vaccines against the diseases. The colleges and universities must also ensure that each student who resides in on-campus housing affirms that he or she has received the information and, if the student has been vaccinated against either disease, provides the date of the vaccination or vaccinations. Finally, the college or university must maintain a confidential record of the affirmations and the dates of the vaccinations.
