Analysis by the Legislative Reference Bureau

Under current law, the Veterinary Examining Board (board) issues licenses to veterinarians and certifications to veterinary technicians, which must be renewed every two years. The board is required to promulgate rules requiring continuing education to ensure that veterinarians and veterinary technicians are competent in using, handling, distributing, and disposing of pesticides.

This bill requires the board to promulgate continuing education rules to ensure competency in practicing veterinary medicine, including, but not limited to, competency in using, handling, distributing, and disposing of pesticides. In addition, with certain exceptions, the bill requires an applicant who applies to renew a veterinary license or veterinary technician certification to certify that he or she has completed continuing education. Veterinarians must complete 30 hours of continuing education every two years and veterinary technicians must complete 15 hours every two years. The continuing education requirements do not apply the first time that a veterinarian or veterinary technician applies to renew his or her license or certification. In addition, the board may waive the requirements if exceptional circumstances, such as prolonged illness or disability, prevent a veterinarian or veterinary technician from meeting the requirements. Also, if any complaint is made

ASSEMBLY BILL 165

against a veterinarian or veterinary technician, the bill allows the board to require the veterinarian or veterinary technician to submit proof that he or she has completed continuing education during the preceding two-year licensure or certification period.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
