### *Analysis by the Legislative Reference Bureau*

Under current law, the publisher of a newspaper is generally required to pay a newspaper recycling fee based on the volume of newsprint used by the publisher unless the newsprint on which the newspaper is printed contains a specified minimum percentage of fiber derived from postconsumer waste. For 1998 to 2000, the specified minimum percentage is 33%. For 2001 and 2002, the specified minimum percentage is 37%. For 2003 and thereafter, the specified minimum percentage is 40%.

Under this bill, the specified minimum percentage of fiber from postconsumer waste for newsprint used in newspapers is 33%, with no future increases.
