### *Analysis by the Legislative Reference Bureau*

This bill creates a Manufacturing Competitiveness Grant Program (program), which is administered by a Manufacturing Competitiveness Board (board) created under the bill. The bill provides \$9,500,000 of general purpose revenue to fund grants under the program, although the aggregate total of all initial grants is limited to \$2,500,000.

Under the bill, the board may make grants to the Board of Regents of the University of Wisconsin System, the Technical College System Board, and certain entities that assist manufacturers. The bill specifies that a trade association or chamber of commerce is not eligible to receive a grant under the program. A grant may be used to fund, at least in part, any project that assists a manufacturer in accomplishing improved productivity, reduced costs of operation, the use of new technology in the manufacturing process, the improvement of the skills of its workforce, the creation of new products, sales in new markets, or any other goal approved by the board that benefits manufacturing in this state.

The bill also provides \$500,000 to the Technical College System Board to contract with and award grants to the tax-exempt organizations described above for
