348.27 (7m) THREE VEHICLE COMBINATIONS

The department may issue an annual or consecutive month permit for the movement of a 3-vehicle combination consisting of a towing vehicle and, in order by weight, with the lighter of the towed vehicles as the 3rd vehicle in the 3-vehicle combination unless not structurally possible, a mobile home or camping trailer, and a ~~boat trailer, motorcycle trailer, personal watercraft trailer or all terrain vehicle trailer~~ trailer for a vehicle for personal recreational use, to be operated on a highway from April 1 to November 15 of each year, if the overall length....

This section refers to an "annual permit" - but under this amendment the permits would only be available for April 1 to November 15. Can we still refer to it as an annual permit since it would be for the calendar year? I am assuming that this permit process is really only employed during these months anyway - so I would think the fee etc. could remain the same.

If you think it would make more sense to structure the amended sentence differently - please feel free to do so.

Again - I would like the amendment by the end of today if possible (sorry!!!!).

As we discussed, I don't believe it is necessary to change the language of s. 348.27 (7m) regarding fees for these annual and consecutive month permits. The permit may still be issued on an annual basis even though the three-vehicle combination may only be operated seasonally. Of course, there would be a financial incentive to obtain a consecutive month permit rather than an annual permit.

It was necessary to significantly change the relating clause because the amendment changes not only the types of trailers affected by the bill but also imposes the seasonal operation limitation.

As we discussed, the language of the amendment is similar to but not identical to the language in 2003 SB-159.
