

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-3167/2dn
RCT:kjf:jf

October 16, 2003

This is the redraft of the Dry Cleaner Environmental Response Program draft.

Regarding DNR's concerns about agents acting on behalf of owners and operators, I believe that the changes to s. 292.65 (4) (k) are sufficient to accomplish what is wanted.

As I discussed with Robin Schmidt, I changed the language of s. 292.65 (8m) in a different way than was suggested by DNR. I do not think that there is any way to make this language simple, because the calculation is complex, but I hope that this is more clear.
