

Fiscal Estimate Narratives

DOA 4/21/2003

LRB Number 03-2111/1	Introduction Number AB-179	Estimate Type Original
Subject Municipal liability and fireworks		

Assumptions Used in Arriving at Fiscal Estimate

The bill establishes an exemption for civil liability for a local government or local official for damage by reason of issuing a permit regarding fireworks. Such liability is now limited to \$50,000. DOA has no data on current costs that might exist from the lack of an exemption for civil liability. If there are current costs then the exemption would remove them. Going forward the exemption should prohibit such costs for local governments and officials.

Long-Range Fiscal Implications
