

Fiscal Estimate Narratives

DPI 9/26/2003

LRB Number	03-2006/1	Introduction Number	AB-505	Estimate Type	Original
Subject					
Aggressive driving and driver education instruction					

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a penalty enhancer for persons convicted of violating three or more specified traffic offenses within a single course of conduct. The bill also requires driver education courses to also acquaint each student with the hazards posed by aggressive, hostile, or violent driving and to provide instruction in safely dealing with such hazards.

This bill has no state fiscal effect on the Department of Public Instruction (DPI).

DPI does not collect data on local school district costs related to individual instructional components of driver education courses, so the local fiscal effect of this bill is indeterminate. It is assumed that the cost of providing the instruction required by this bill would be small enough for local school districts to absorb.

Long-Range Fiscal Implications
