Assumptions Used in Arriving at Fiscal Estimate

This bill relates to the establishment of rules and the reporting of outside income by UW System faculty. It requires the UW Board of Regents to post such information annually on an internet web site. Because no additional information is provided as to the detail of the level of reporting requirements, data entry, data analysis, auditing, and data history required, it is impossible to determine the nature of the web site and supporting database required to support the legislation as proposed. It is estimated that the cost of developing a web site and a database which might provide useful information and statistics of this nature would range between \$100,000 and \$200,000. Ongoing yearly maintenance of the database and web site would cost between \$20,000 and \$40,000.
