Subject								
Drainage boards; assessments, comprehensive plans, and the authority to maintain drains								

Assumptions Used in Arriving at Fiscal Estimate

The change to the amount of funds on hand for maintenance will have no fiscal impact.

There may be infrequent instances where a municipality and a drainage board disagree about the need for maintenance of a drainage ditch within the municipality. The process to resolve this disagreement may result in additional costs for one or both of the units of government. This would be a rare occurrence and will be a matter that is within the control of the two governmental entities.

Long-Range Fiscal Implications
