Assumptions Used in Arriving at Fiscal Estimate

This bill defines the PSC's complaint authority already granted under s. 66.0821 (5)(a) to require that storm water utilities cannot direct charge costs and include them on the tax roll. The bill would allow complaints to be filed if such situations existed. The bill will not increase the costs of the PSC.

Local Impact

Besides the direct charge vs. tax roll changes the bill requires municipalities to consider the physical conditions that contribute to a properties' storm water discharge and thereby strengthens existing language to require the consideration. The added cost of this consideration should be insignificant to local governments.
