Subject Expand volunteer health care provider program to include services in public elementary and secondary schools		

Assumptions Used in Arriving at Fiscal Estimate

This bill expands the Volunteer Health Care Provider Program to authorize provision of services, without charge, from four-year-old kindergarten to grade six in a public elementary school, a charter school, or a private school participating in the Milwaukee Parental Choice Program (MPCP), if DOA approves the joint application of a health care provider and a school board or the governing body of a charter school or a private school participating in MPCP. After providing to the school board or relevant governing body proof of satisfactory completion of any relevant competency requirements, the volunteer health care provider may provide without charge to students from four-year-old kindergarten to grade six of the school, regardless of income, diagnostic tests; health education; information about available health care resources; office visits; patient advocacy; referrals to health care specialists; first aid for illness or injury; in compliance with the written instructions of a pupil's parent or guardian, the administration of any drug, other than a contraceptive drug, that may lawfully be sold over the counter; health screenings; any other health care services designated by the Department of Public Instruction (DPI); and, for dentists, simple tooth extractions and necessary related suturing. However, the volunteer health care provider may not provide emergency medical services, hospitalization, or surgery, except as designated by DPI by rule, and may not provide abortion referrals, contraceptives, or pregnancy tests.

Local Fiscal Effect:

This bill has no local fiscal effect.

State Fiscal Effect:

This bill has no fiscal effect on the Department of Public Instruction.

Long-Range Fiscal Implications
