

**Fiscal Estimate Narratives**

**PSC 2/4/2004**

LRB Number <b>03-3944/1</b>	Introduction Number <b>AB-774</b>	Estimate Type <b>Original</b>
<b>Subject</b> Public utility aid payments and taxation		

**Assumptions Used in Arriving at Fiscal Estimate**

AB 774 proposes a small change to Public Service Commission statutes. The change to s.196.491 (3) (gm) would require, as part of other requirements in the statute, to determine the net book value of certain high-voltage transmission lines. For new lines that meet the definitions in this statute the net book value would be the same as the cost. For costs of lines in operation the net book value would be determined from company depreciation records. Therefore, the cost in terms of time and effort by PSC staff would not change. In addition, for the PSC portion of this bill, there would not be any fiscal effects on local government.

**Long-Range Fiscal Implications**
