**State of Wisconsin
 Legislative Audit Bureau**

October 14, 2003

The Honorable, The Legislature:

At the request of Representative Sheryl Albers, we have compiled some information on the management of inmate property in the Department of Corrections' Division of Adult Institutions.

Because managing inmate property falls within the duties of many staff within the institutions, there is no direct way to identify the total expenditures required to inventory, monitor, control, and ship inmate property. However, in fiscal year (FY) 2002-03, the Department assigned as estimated 27.3 full-time equivalent correctional officers and sergeants to institution property rooms, where they created and maintained manual inventories of all inmate property and managed personal property shipped with inmates who were transferred to other adult institutions. The salaries and fringe benefits for these positions totaled approximately \$1.2 million. We estimate that in FY 2002-03, there were 47,300 inmate departures and arrivals, for which between 94,600 and 141,900 boxes of inmate property were inventoried and shipped, and between 47,300 and 94,600 oversized items were transferred between institutions.

Department staff may confiscate any inmate property if they believe doing so serves a legitimate interest, such as the preservation of prison security or safety of officers and inmates. Under s. DOC 309.20 (3)(g), Wis. Adm. Code, the Department reimburses inmates for any property lost or damaged by staff. The Department each year investigates a large number of personal property complaints from inmates. While the number of complaints has increased steadily over the past four years, the number of complaints approved by wardens and the amount of reimbursements paid out to inmates has decreased. In 2002, out of a total of 7,371 inmate personal property claims, the Department authorized reimbursement for 156 and paid \$4,641. The rate at which inmate property complaints are approved has fallen from 4.4 percent in 1999 to 2.1 percent in 2002.

Because of the amount of staff time spent on managing inmate property, particularly in maintaining manual, hand-written property inventories, we include a recommendation that the Department conduct a business process analysis of its inmate property inventory procedures to automate the system and further increase efficiency.

I hope you find this information useful. Please contact me if you have additional questions.

Sincerely,
 JANICE MUELLER
 State Auditor
