AN ACT to renumber and amend 29.971 (11); and to create 29.971 (11) (a) and (c) of the statutes; relating to: penalties for hunting deer, including a trophy deer, without a license, requiring the exercise of rule-making authority, and providing penalties.

Analysis by the Legislative Reference Bureau

Under current law, the penalty for hunting a wild whitetail deer without a license, with the aid of artificial light or with the aid of an aircraft, is a fine of $1,000 to $2,000 or imprisonment for not more than six months or both, plus the revocation of any license issued by the Department of Natural Resources (DNR). In addition, DNR must deny the issuance of any new license to the person for three years.

This bill provides that these penalties only apply to the hunting of any wild whitetail trophy deer, which is a deer with antlers having a score of 100 or more using the scoring method established by DNR by rule. The bill requires DNR to promulgate rules establishing a method for scoring deer antlers based on the method of scoring deer antlers that is used by the Boone and Crockett Club, which is based on the length, spread, and number of points on the antlers. In addition, the bill provides different penalties for the hunting of deer other than a trophy deer without a license, with the aid of artificial light or with the aid of an aircraft. The penalty is a forfeiture of not more than $500 plus the possible revocation of any current license issued by DNR and denial of issuance of any new DNR license to the person for one year.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a
report concerning the proposed penalty and the costs or savings that are likely to result if the bill is enacted.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
