AN ACT to create 95.36 (10) and 95.51 of the statutes; relating to: registration of livestock premises and granting rule-making authority.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Agriculture, Trade and Consumer Protection (DATCP) conducts various activities to protect animal health and food safety.

This bill requires certain persons who keep livestock in this state to register with DATCP. For the purposes of this bill, “livestock” means cattle and bison, horses, goats, poultry, sheep, swine, deer, and any other kind of animal that DATCP identifies by rule. To be covered by this bill, a person keeping poultry must have more than 20 animals and a person keeping horses must have more than five animals.

The bill requires DATCP to assign a premises code to each location where livestock are kept and to maintain a data base containing the codes and related information. Information provided to DATCP under this bill must generally be kept confidential, except for information that is required to be provided under other laws. The bill authorizes DATCP to contract with an agent to administer the livestock premises registration program.

Under current law, DATCP makes payments to owners of animals that DATCP orders killed to control animal disease. Current law specifies several situations in which owners are not eligible for these payments. Under this bill, the owner of an animal that DATCP orders to be killed to control animal disease is not eligible for a payment from DATCP if the person did not register as required by the bill.
