Wisconsin Act 33, section 9124 (8); relating to: Medical Assistance Program
and Community Aids Program funding and programs and making
appropriations.

Analysis by the Legislative Reference Bureau

Under current law, Medical Assistance (MA) is a joint federal–state program
administered by the Department of Health and Family Services (DHFS), under
which persons with low income and few assets are provided health care services. The
health care service providers are reimbursed for their services by a combination of
state general purpose revenues, state segregated revenue from the MA trust fund,
and federal Medicaid matching moneys.

Currently, under the Community Aids Program, DHFS distributes to county
departments of social services, human services, community programs, and
developmental disabilities services moneys for community social, mental health,
SENATE BILL 567

developmental disabilities, and alcohol and other drug abuse services, and other services, including child abuse and neglect and unborn child abuse services and Alzheimer's family and caregiver support services. Moneys for the Community Aids Program are provided from, among other sources, state general purpose revenues, county revenues, and federal moneys under the federal social services block grant, converted Temporary Assistance for Needy Families block grant moneys, and moneys under Title IV-B of the federal Social Security Act.

Under current law under 2003 Wisconsin Act 33 (the biennial budget act), an appropriation account of program revenue was created to provide supplemental MA program benefits for numerous services and to receive moneys that, upon demand by DHFS, were required, under the biennial budget act, to be paid by counties through intergovernmental transfers to obtain federal Medicaid matching moneys.

Also under current law under the biennial budget act, the community services deficit reduction benefit (CSDRB), under which counties and local health departments can claim federal Medicaid matching funds to cover costs for MA services provided that are not fully reimbursed, was made inapplicable if increased federal Medicaid matching funds through the use of intergovernmental transfers were approved before July 1, 2005. Any county or local health department that received a CSDRB distribution after 2002 would be required to return the distribution to DHFS. However, moneys from the MA trust fund were required to provide payments to county departments and local health departments to hold them harmless from the elimination of the CSDRB.

This bill authorizes DHFS, beginning on January 1, 2003, to make, from the general purpose revenue appropriation account for the Community Aids Program, MA payment adjustments to county departments of social services, human services, community programs, or developmental disabilities services or to local health departments for MA services. The MA services for which this funding is provided include early and periodic screening and diagnosis; home health services; services and supplies for family planning; physical and occupational therapy; speech, hearing, and language disorder services; medical day treatment services; certain mental health and alcohol and other drug abuse services; certain nursing services; personal care services; respiratory care services; care coordination for high-risk pregnancies; prenatal, postpartum, and young child care coordination; lead poisoning and lead exposure services; mental health crisis intervention services; and certain case management services. The bill also authorizes payment under the Community Aids appropriation account, until January 1, 2006, of MA payments to providers of personal care, home health, and respiratory care services. The bill decreases the Community Aids Program general purpose revenues appropriation for fiscal year 2004-05, and increases the MA general purpose revenues appropriation by a like amount for the same fiscal year. The bill also requires DHFS to submit program and financial information to the Department of Administration and the Legislative Fiscal Bureau for the 2005-07 biennial budget bill as if the increase and decrease had not been made.

The bill eliminates the appropriation account of program revenue created under the biennial budget act to supplement MA program benefits, eliminates the
SENATE BILL 567

requirements for counties, upon demand by DHFS, to make payments to DHFS for inclusion in that appropriation account, and eliminates the designation of moneys transferred from that appropriation account to the MA trust fund.

The bill eliminates the allocation of moneys from the MA trust fund to hold county departments and local health departments harmless for the loss of moneys under the elimination of the CSDRB and reduces the MA trust fund by $17,000,000 for fiscal year 2004−05. However, the bill permits DHFS to make payments from the Community Aids general purpose revenue appropriation account in fiscal year 2004–05 to city health departments that had been receiving CSDRB payments. As of January 1, 2006, the bill also eliminates provisions that would have made the CSDRB inapplicable if increased federal Medicaid matching funds through the use of intergovernmental transfers had been approved, and restores the CSDRB. To ensure that county departments and local health departments are held harmless from any payment gap that would exist in 2006, the bill recreates, for that year only, authority to expend moneys from the MA trust fund to provide payment for that purpose.

Lastly, the act is void on the earlier of July 1, 2005, if an amendment to the state MA plan that provides for MA payment adjustments to be made from the Community Aids Program to county departments of social services, human services, community programs, or developmental disabilities services or to local health departments is not approved in writing by the federal Centers for Medicare and Medicaid Services by that date, or any date on which the amendment is disapproved, and the secretary of administration must notify the revisor of statutes of the lack of approval or disapproval.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
