950.055. Child victims and witnesses; rights and services.

(1) LEGISLATIVE INTENT. The legislature finds that it is necessary to provide child victims and witnesses with additional consideration and different treatment than that usually afforded to adults. The legislature intends, in this section, to provide these children with additional rights and protections during their involvement with the criminal justice or juvenile justice system. The legislature urges the news media to use restraint in revealing the identity of child victims or witnesses, especially in sensitive cases.

(2) ADDITIONAL SERVICES. In addition to all rights afforded to victims and witnesses under s. 950.04 and services provided under s. 950.06 (1m), counties are encouraged to provide the following additional services on behalf of children who are involved in criminal or delinquency proceedings as victims or witnesses:

(a) Explanations, in language understood by the child, of all legal proceedings in which the child will be involved.

(3) PROGRAM RESPONSIBILITY. In each county, the county board is responsible for the provision of services under this section. A county may seek reimbursement for services provided under this section as part of its program plan submitted to the department under s. 950.06. To the extent possible, counties shall utilize volunteers and existing public resources for the provision of these services.

The department shall reimburse counties under this subsection from the appropriation under s. 20.455 (5) (k), (kk) and (kp) and, on a semiannual basis, from the appropriations under s. 20.455 (5) (c) and (g).

(2) only if the department has approved the plan. The program plan shall describe the level of services to victims and witnesses that the county intends to provide; the personnel or agencies responsible for related administrative programs and individual services; proposed staffing for the program; proposed education, training and experience requirements for program staff and the staff of agencies providing related administrative programs and individual services; the county's budget for implementing the program and other information the department determines to be necessary for its review. The plan shall provide that the district attorney, local law enforcement agencies and the courts shall make available to the person or agency responsible for administering the program all reports or files, except reports or files which are

required by statute to be kept confidential, if the reports or files are required by the person or agency to carry out program responsibilities. Each year, the county board shall submit a report to the department on the operation of the plan, including the provision of services under sub. (1m).

(5) The department shall review and approve the implementation and operation of programs and the annual reports under this section. The department may suspend or terminate reimbursement under sub. Testimony before the Assembly Committee on Colleges and Universities
Regarding: AB 497

At the request of the University of Wisconsin System, I authored AB 497 to increase student access to important information and to reduce printing costs.

Currently, Wisconsin law requires the UW to distribute *paper* copies of federal and state information on sexual assault and sexual harassment.

AB 497 would allow the UW to provide the required written information in *electronic* format. The cost savings to the UW would be substantial, since presently this specific information must be presented *annually and in hard copy format* to the UW's 150,000+ students.

The UW System has assured me that every student is issued an email account and would therefore receive this information when it is distributed electronically.

I consider this bill a minor adjustment of current law, to allow for a more reasonable, economical and efficient method of information distribution.

Thank you for your consideration,

Suzanne Jeskewitz

Testimony on AB 497 to allow UW System campuses
to provide required information by electronic means.

Hello. My name is Janice Sheppard and I am representing UW System. In my work in the Office of Academic and Student Services, I gather the data required by this statute and assist the institutions to understand what the statute requires of them.

Thank you Representative Jeskowitz, for sponsoring this bill that will make information about sexual assault prevention and response more accessible to students. As currently worded, Wis Stats. 36.11(22) requires that specific information be provided annually to students in "printed" format. AB 497 will allow institutions the option of annually providing this information electronically in addition to or instead of in a printed format.

We support this change for the following reasons:

- The statute requires a significant quantity of specific information be provided to students. One component of the required information is definitions and penalties for six different state statutes. When printed in a size 10 font, this statutory information alone is approximately 14 pages long. Institutions report that most of the printed material for new students ends up on the floor at orientation.
- Although institutions try to provide this information in print to continuing students, you can imagine how daunting 14 pages of statutory language can be. When questioned about the printed version, students often don't remember receiving it.
- The statute was written before students relied on electronic sources for their information. Today students tell us they rely on and prefer the web for their information.
- In contrast to printed information, electronic web-based information is available immediately and all day & night. Additionally, information about programming or resources can be easily revised as contact information or program details change.
- It is particularly important that safety & resource information be readily available on an immediate, as-needed basis.
- Requiring institutions to provide this information in print overlooks the as-needed nature of most of the resource material being provided.
- Students will be notified that the required information is available through an annual email notification including a hotlink to the information.
- It is difficult to assess the cost related component of this proposed change; however it is clearly not cost effective to provide the information in a format that students don't use or keep. What is most important to UW System is that it will allow each institution to determine the best means for providing this information to students, rather than requiring that resources go into providing the information in a printed format if an electronic format is more effective.

TO: Colleges and Universities Committee members
FROM: President Katharine Lyall *KLyall*
RE: Executive Session Bills, January 13

I am writing to share the University of Wisconsin System positions related to two bills on your executive session calendar this Tuesday, January 13. We appreciate the opportunity to reiterate our support for both these proposals.

AB 406. SUPPORT: Active Duty Reenrollment. As written, AB 406 amends current law to extend tuition refunds and reenrollment options to Wisconsin residents who are members of the National Guard or Reserve Unit of **any state** who are called to active duty. This legislation is heartily endorsed by the UW System and is very much in keeping with our policies and practices at UW-Madison and other system schools. Moreover, it is further evidence of the UW's longstanding commitment to its students who serve in the Armed Forces in times of conflict. At its April 2003 meeting, the Board of Regents of the UW System passed a resolution that expressed "strong support and gratitude for the valor and dedication of all those in the University of Wisconsin System who are serving their country and . . . a commitment to making every effort to ease their transition when they return to the university."

AB 497. SUPPORT. Allows electronic distribution of sexual assault prevention information to students. (NOTE: the information would continue to be presented orally during orientation programs for new students). Delivering orientation materials to students electronically will provide a higher level of access to the information and will save money in printing costs. Also, placing the information on the campus' website will assure that it is available 24 hours a day. Each UW institution assigns an email account to every student. Thus every student has an email account to access this information were it to be provided electronically. Institutions will continue to make hard copy available upon request to any students who prefer to receive the information in that way.

Thank you for your favorable consideration of these bills. Please feel free to contact me, Margaret Lewis (2-4464) or Doug Bradley (2-4463) if you have any further questions.
