TESTIMONY
AB-151

First I'd like to thank Senator Stepp for giving this bill a hearing. It isn't the most high profile of the economic development bills that we've been dealing with, but it is important legislation for Marinette County, which Rep. Seratti and I both represent.

Currently local county industrial development corporations can do the following:

They can provide financial assistance to an industrial development project, acquire and develop property or sell or lease it for industrial use and they can borrow or loan money for the purpose of industrial development.

Current law, however, limits the use of these development tools to industrial or manufacturing projects, which in earlier times made a great deal of sense. Unfortunately manufacturing is in decline in Wisconsin. Most of us here have supported a number of efforts to help protect and hopefully somewhat expand our manufacturing base and many of us have also supported creating technology zones and capco funds to help attract investment and create new economy jobs.

This bill only makes a small but significant change to the definition of industrial development to include commercial service and retail projects so communities like those in northeastern Wisconsin and

throughout the state who are trying to be creative in growing their economies can have the flexibility to do just that.

Thank you.

Sen. House

MEMORANDUM

TO: Honorable Members of the Senate Committee on Economic Development,
Job Creation and Housing

FROM: Matthew Stohr, Legislative Associate *MS*

DATE: February 18, 2004

SUBJECT: Support for Assembly Bill 151

The Wisconsin Counties Association (WCA) supports Assembly Bill 151 (AB 151), which changes the definition of industrial development projects under the Industrial Development Law.

AB 151 amends state statute to expand the abilities of county industrial development agencies. AB 151 provides county industrial development agencies more flexibility in regard to industrial development projects, such as county industrial parks. This expanded ability and flexibility will assist counties with their efforts to increase their tax base, which can be a very challenging task during difficult economic times.

Each year the Wisconsin economy becomes more service oriented. Therefore, a majority of job growth has taken place in the service industry. By expanding the definition of industrial development projects to include commercial, retail or service enterprises, AB 151 allows county industrial development agencies to adapt to rapidly changing trends in regional, state and national economies.

Thank you for considering our comments.
