TED KANAVAS

STATE SENATOR

Date: Wednesday, March 3, 2004

To: Members of the Senate Committee on Economic Development, Job creation and Housing

From: Senator Kanavas

Re: Testimony in support of Senate Bill 450 - relating to apportioning remaining net income by using a single sales factor based on creating and retaining new jobs.

Chairperson Stepp and members of the Senate Committee on Economic Development, Job Creation and Housing, I greatly appreciate the opportunity to submit testimony in support of Senate Bill 450, which relates to enacting single sales factor instantaneously for companies that create 100 new jobs in Wisconsin.

One of our greatest economic accomplishments last year was the passage of Senate Bill 197 (2003 WI Act 37), or **single sales factor**. This law will allow corporations doing business in Wisconsin to pay taxes only on their in-state sales instead of a formula that encompasses in-state sales, property and employment. While this was great news for Wisconsin businesses, the benefits of this legislation will not be fully realized until 2008.

SB 450 would simply allow a company to enact single sales factor right away if they create 100 new jobs (net gain) and keep those jobs in Wisconsin for three years. This bill gives companies the incentive to create jobs in Wisconsin today while not having to wait until 2008 for single sales factor to be fully implemented.

As Wisconsin's economy continues to recover from the job losses in the manufacturing industry, we must do all that we can to help retain and create jobs in our great state. I know that this is a common goal that we all share as legislators and I ask for your support of SB 450.

I understand that the Department of Revenue has a number of technical concerns with the bill. I am willing to work with the department to address some of those concerns.

Again, thank you for the opportunity to submit testimony in support of this very important job creation legislation.
